

A Junk Free Planet Announces Dumpster Rental In Glendale CA

March 15, 2021

March 15, 2021 - PRESSADVANTAGE -

A popular Glendale, California based junk removal company has announced that they are now offering dumpster rental services throughout Glendale, as well as other areas throughout the region. Owner Pernell states that as a business owner, he is always looking for ways to keep his prices lower, and yet keep the quality of service that his customers deserve.

Pernell says, "With the time we've all had to stay home, it's only normal that more junk will either be accumulated or out of boredom, many have started cleaning up their garage area, and gathering excess items, no longer needed, and require some way of disposing of those unwanted items."

For years, the company has been providing their Red Junk Removal Truck to areas, often parked under a freeway overpass. Pernell states that he wants to now let customers know that he is offering Roll-Off dumpsters which normally rent for a 7 day period.

"We also have a larger tandem trailer we can drop off as well," Pernell adds. "With the events going on in recent months, we are not only offering 7-day rental but also to ease the expense, we are offering dumpsters on a 3 day, as well as 1-day service. Both options will, of course, result in savings to you, and is just another way we are able to give back to the community."

A Junk Free Planet offers their services in areas that include Beverly Hills, Brentwood, Burbank, Chatsworth, Culver City, Downey, Glendale, Hermosa Beach, Hollywood Hills, Manhattan Beach, Marina Del Rey, North Hollywood, Los Angeles, Northridge, Ocean Park, Paramount, Pasadena, Porter Ranch, Rancho Palos Verdes, Redondo Beach, Santa Clarita, Santa Monica, Sherman Oaks, Simi Valley, Studio City, Universal City, Valencia, Venice Beach, West Hollywood, and Woodland Hills.

The company specializes in the removal and disposal of all types of junk, debris and rubbish. Services

include trash hauling, furniture disposal, yard waste removal, spa and hot tub removal, debris removal, and others. Pernell says that if it needs to be hauled away, chances are that his company can take care of it.

"We aim to provide our customers with the most comprehensive services, and at reasonable prices," he says. "Anyone who needs anything hauled away or anyone who wants to rent a dumpster can go to our website to get an idea of the overall cost for our services."

Pernell adds that the company offers only quality and reliable services that are carried out by professionals. The company can help with disaster cleanup, as well as various other debris and junk removal services. A Junk Free Planet provides same day services in most cases.

Dumpster rentals offer a number of advantages for personal, as well as commercial use. For companies, dumpster rentals provide a safer job site, as debris can be put away and not left lying on the ground potentially causing a fall. Renting a dumpster for business use or for personal use when moving or cleaning out a home can also make the job run much more efficiently and keep things organized as trash can be put away immediately as opposed to having bags of garbage or boxes of old or broken items lying around. Pernell states that renting a dumpster service not only gives peace of mind, but helps to keep things neat and tidy whether at a job site or a residential area. Landlords often take advantage of dumpster rentals when cleaning out apartments or homes that have been left cluttered when tenants move out.

Those who are interested in learning more about the dumpster rental service, or any of the services offered by A Junk Free Planet can visit them on their website for a complete list of their services and their current service areas. Those in need of renting a dumpster can contact the company through their website or directly by phone by calling (818) 625-3977. Price lists for their services can also be seen on the company's website.
