Customers' Reviews State They Had Work Done by the Best Akron Roof Repair Contractor

March 15, 2021

Akron, Ohio - March 15, 2021 -
TK Roofing & Gutters, a family-owned Akron, Ohio business, prides itself on being a well-rounded roofing contractor. They also are known for combining great roofing work with excellent customer service. But it?s the number of 5-star reviews that have been left on their services that are the biggest indicator that they may be the best roof repair contractor in the Akron area. Satisfying customers with roof repair services is something that this contractor has been successfully doing since 2005.

Daryl Gentry, the owner of TK Roofing & Gutters, says, ?We don?t go to work with the goal of getting glowing reviews in mind, but we do realize if we work hard, don?t take shortcuts, and treat our customers the right way, that 5-star reviews will be a natural part of the process. Our company certainly does appreciate those we have satisfied with our roofing services taking the time to leave highly favorable reviews. It gives us the incentive to continue doing whatever it takes to be considered one of the top Akron roofing contractors.?

The company owner says that one of their most popular roofing services is their whole roof replacement services. He stated that it?s something they love to do because it's their specialty, and it?s the type of job that leaves a lasting impression as to how meticulous they are when it comes to their roofing work. It also gives them a chance to increase the curbside appeal of the customer's home. Recent roof replacement recipient, Chris Muzic, stated, ?I had my roof completely replaced. The quality of workmanship was absolutely top-notch. They use good materials and don't cut corners. The quote was great, and they actually beat out multiple other companies. These guys had my roof done in basically one day talk about impressive. I live in Northfield, and they are out of Akron, but they had no problems with the distance. TK Roofing changed my perception of roofers as they could not have been more professional. This is a company that I highly recommend.?

TK Roofing & Gutters also provides a large variety of other roof repair services. Gentry pointed out that this includes quality leak detection & repair and storm emergency roofing services. He says that no roof

repair that?s asked of them is ever considered too big, too small, or too complicated for them to take on. People who have used their other roof repair services have also been very complimentary of them. Thomas Young proclaimed, ?It is no wonder that so many people leave such wonderful feedback about this company. When it comes to roofing, there is no problem that they won?t be able to fix. Very knowledgeable, very respectful, and always on time with every promise or request is given or received. If I could give 6-stars to this company, I would! Thanks for always going above and beyond with everything you do!?

Even one of their other specialties, the installation, and repair of gutters & downspouts, often gets rave reviews from those that have taken advantage of this service from the company. Nick wrote, ?Absolutely the best. I had 6-inch gutters Installed, which resolved my water issues. The installers were extremely knowledgeable, efficient and clean up the mess thoroughly. The materials they use are top-notch, and their prices are extremely reasonable. If you go with gutter solutions and more from this company, you will not regret your decision.?

All of the above-mentioned reviews were taken from the company?s Google Maps Business Listing. The majority of the reviews left on that site rate TK Roofing & Gutters a perfect 5 out of a possible 5-stars. They provide roofing services to customers not only in Akron but also in such Ohio areas as Hudson, Cuyahoga Falls, Norton, and Canton. Those that would like more information on the roof repair services that TK Roofing & Gutters offers can call them, send them an email, or refer to their website that?s found at https://www.tkroofingandgutters.com/akron-oh-roofing-company.

      "name": "When Should I Replace My Roof? Answer",
        "text": "There are several things you should consider about when to replace your roof.  The age of the roof. Most roofs can last anywhere from 20-30 years. It also depends if your current roof was replaced over an older roof. This can mask underlying problems and cause them to become bigger issues as the roof ages. Missing or damaged shingles. If you can see that your roof has missing shingles, or if your shingles are curling or broken, then it is time to look at replacing your roof. If you begin to notice discoloring on your ceilings or walls this could be a sign that there is a leak in your roof. If you are unsure if you need a new roof, contact the best roofers in Ohio, TK Roofing and Gutters, for a free inspection and estimate.",
