Company Representative, Donald Sulivan, made this statement: "Providing exceptional service to our customers is our top priority and we always welcome their feedback. We are happy to have been able to meet the needs of this customer and look forward to providing the same great experience to others in need of

our services."

Tree Service Experts Long Beach is a family-owned tree service with over 25-years of experience caring for the natural landscape of communities in Long Beach, CA. The company's stated goal is to provide exceptional tree service to all residential and commercial clients looking to maintain or improve the natural surroundings of their homes and businesses.

Trees play a significant role in our environment in many ways. Trees contribute to the environment by providing oxygen, improving air quality, climate amelioration, conserving water, preserving soil, and supporting wildlife. During the process of photosynthesis, trees take in carbon dioxide and produce the oxygen we breathe. Even early incarnations of aspirin were made by boiling the bark of the white willow tree.

Company Representative, Donald Sulivan had this to say about their process: "As tree service experts, we are well aware of the importance of trees in our environment, which is why tree removal is always a last resort. Our certified arborists are very skilled and experienced in tree care and if a tree can be saved, we will find the solution. With that said, in some situations tree removal is unavoidable. When that is the case, we will always use the most up to date and safest methods available to protect property and everyone involved."

Tree Service Experts Long Beach guarantees a certified arborist to manage every customer job. The company's arborists received their certifications through the International Society of Arboriculture (ISA), which requires three years of experience in tree care prior to certification program consideration. Homeowners and property owners that work with companies such as Tree Service Experts Long Beach can have peace of mind knowing real experts are handling their tree job.

Tree Service Experts Long Beach is accepting new customers and as an incentive, the company is offering discounts on services such as tree trimming, tree pruning, stump removal, and arborist services. Those interested in a consultation or who wish to speak with a customer service representative should call 310-905-5308. Contact requests can also be made by visiting the company's website at https://www.thelocaltreeexperts.com/ca/long-beach/ and completing the online contact request form.
