

AC Carpet & Upholstery Cleaning Announce The Importance On Keeping Carpets Clean

March 22, 2021

March 22, 2021 - PRESSADVANTAGE -

Today AC Carpet & Upholstery Cleaning announced the importance on keeping one's home and business carpets clean and virus free. The Stoke-On-Trent based Carpet Cleaning company have been actively spreading the word about this hidden danger.

"We all know the importance of washing our hands and wearing facemasks to help reduce the spread of the Covid-19 virus," commented Mr Cooper, the owner of AC Carpet & Upholstery Cleaning. "But we tend to forget about our flooring, if we have been outside say to the supermarket and have been walking around we could potentially be bring the virus back into our homes."

It has been said that the virus can live for some periods of time on various surfaces; people wash door handles, worktops and shared areas but flooring is often neglected.

Mr Cooper said, "Regular carpet cleaning using powerful equipment, products, and procedures that a professional carpet cleaner provides can kill the virus on contact and help to clean your home or shared business area in the process."

AC Carpet & Upholstery Cleaning have a number of cleaning packages that are suited to help keep the home clean, they offer a carpet, rugs and upholstery cleaning where they use a number of techniques that clean deep into the fibres. They also offer Leather cleaning to help clean and protect sofas and leather goods.

Mr Cooper also commented, "Some of our customers have been worried about our cleaners entering their home and how to best adhere to the social distancing regulations, I have made sure that our company has strict policy's in place to make sure that all regulations are upheld, not only that but our top propriety is to keep our customers and staff safe."
