Professional Office Cleaning Services Sydney Now Within Everyone?s Reach

March 22, 2021

March 22, 2021 -
Office Cleaning Commercial Cleaning Sydney now offers services in all suburbs of Sydney through the company?s website where new & existing customers can book a cleaner online. The company has been in the process of expanding its business to cover more suburbs since the last one year and has now successfully achieved the milestone. At present, the company offers commercial cleaning & office cleaning services in all 658 suburbs of Sydney and is accepting orders online (website) and on call (1300 869 775).

Apart from office cleaning, the company offers a wide range of janitorial services, including commercial building cleaning, strata cleaning, warehouse/factory cleaning, window cleaning, gym cleaning, school cleaning, childcare cleaning, hospital cleaning, and others. This is one cleaning company that hundreds of Sydney businesses fully trust to do a great job consistently.

?We have been catering to the cleaning needs of local businesses for over 20 years now, and more than 98% of our clients are happy with our services. We have a client retention rate of over 70%, and most of our existing customers use our routine cleaning services. We help businesses, property owners & strata managers in Sydney make their premises look good and live longer through systematic cleaning & maintenance,? said a company representative.

Cleaning is important not just as a way to maintain the company image but also to ensure the health safety of workers and visitors. A retail store in Sydney might be entertaining hundreds of customers a day. These, besides the store?s own workers, contribute to making the place a mess throughout the day by touching surfaces again and again and bringing dirt from outside.

Routine cleaning of commercial premises is crucial to maintain the company image as well as to keep the people safe from unwanted guests like germs and viruses that could spread through touch.

?As the cases of infection spread through touch are increasing day by day, we are now also providing disinfection cleaning services to help our clients avoid such instances on their business premises.?

Business places like stores and offices get many visitors throughout the day and therefore are most likely to cause the infection to spread through frequent touch. Areas like lift buttons, light switches, counter tops, pen, keyboard buttons, door handles, etc. are touched by multiple people again and again, which makes it easy for the infection to spread from one person to another and then to everyone in the office. Regular disinfection is the only proven way to take care of the problem properly & effectively.

?You can?t expect business owners or managers to also do cleaning when they have a business to run. This is where we come in. We help property managers keep their premises clean so that they can better focus on growing their businesses in a more productive environment.? Businesses throughout Sydney can now outsource office cleaning services to Office Cleaning Commercial Cleaning Sydney, which handles complete cleaning, from floors to toilets, kitchens and outdoor cleaning.

The company also offers specialised cleaning services, including NDIS cleaning, after builders cleaning, event cleaning and same day cleaning.

?There are many reasons why Office Cleaning Commercial Cleaning Sydney is regarded as one of the best cleaning companies to outsource office cleaning & commercial cleaning services in Sydney,? he said. ?We have been in the business for more than 20 years and are quite familiar with the cleaning needs & expectations of a variety of commercial places. Moreover, we have a full-time team of trained & experienced cleaners, which gives us an edge over the competition. Our cleaners are insured and our cleaning practices & solutions are eco-friendly.?

Since the company has years of experience in Sydney commercial cleaning, they are able to consistently deliver quality solutions & services than what an average in-house cleaner will do. Their office cleaning services are comprehensive, which means they will clean everything from the office floors to desks, tiles, furniture, keyboards, doors, windows, toilets, kitchen as well as bins.

Also, the cleaners will regularly remove waste & garbage, re-stock bathroom supplies as well as disinfect frequent touch areas, including toilet seats & basins, ensuring better protection against common viruses and bacteria.

Property owners & managers looking for an experienced office cleaner in Sydney on a budget can

contact Office Cleaning Commercial Cleaning Sydney or visit their website to book a cleaner.
