

N B Builder Launches Asbestos Testing Service for Los Angeles County

April 01, 2021

April 01, 2021 -

N B Builder, which is based in Encino, CA, is happy to announce that they are ready to provide asbestos testing service in Los Angeles County. Asbestos is a material that was commonly used in older houses for its capability to insulate. However, it was later found that exposure to asbestos is linked to several severe health conditions and diseases, such as pleural disease, asbestosis, and mesothelioma. Thus, an important question to ask when planning to buy an old home or move into one is whether asbestos is present in that particular property. That is why asbestos testing may be necessary. More about N B Builder and services can be gleaned from their website at <https://nb-home-builder.business.site>.

Noam Bouzaglou, owner of N B Builder, says, "We're happy to announce that we can now provide you with the asbestos testing that you require for your home. If you suspect that there might be asbestos in your home, call us right away. Don't try to check the material yourself. Disturbing the material may release asbestos dust into the air and this can be hazardous to you and your family. We can also check the air in your home or property to determine if there are any asbestos particles in the atmosphere in your home."

Having the house tested for the presence of asbestos may be vital because even products and materials that have been thought to be free from asbestos may still have been contaminated due to negligence in the evaluation process or absence of testing. Testing is necessary because asbestos is too small to be detected by the naked eye. It is important to note that if asbestos testing detects the presence of asbestos, a more detailed inspection will be required to identify precisely which materials found in the home contain asbestos. After that, these asbestos-containing materials will need to be removed from the home or property. Those interested in learning more about N B Builder can also check out their media page at <https://www.pressadvantage.com/organization/n-b-builder>.

N B Builder is a home builder and renovator that provides various services, including home remodeling, general contracting, plumbing services, earthquake retrofitting, waterproofing, and more. Recently, they have

added asbestos testing to their list of services. Previous customers have indicated their complete satisfaction with the services they have received from N B Builder leaving highly positive reviews.

For instance, David L.S. gave the contractor five stars and said, "We recently purchased a house for the first time. Being a fixer upper, we got a great deal on the purchase but the expenses and headache that followed were out of control. Thanks to Noam and his crew of professionals, what would've been a nightmarish process, became a fun learning experience. NB BUILDER will surely get another call from us with more business in the near future, as well as many other referrals. Highly recommend with over 20 years in the business! Thanks again Noam!?"

Terry A. also gave them five stars and said, "This firm is very professional and knowledgeable. I have worked with them for than 5 years. They are exceptional at that they do from start to end. They never cut corners. What I most appreciate is that they are very direct and clear when it comes to explaining in detail the project at hand, whether it's installing wood floor, painting, or roofing to building an entire home from the ground up. They take the time to give you alternatives that may turn out even better than what you had in mind?."

Noam Bouzaglou, owner of N B Builder, has more than 19 years of home remodeling experience. He specializes in modern and contemporary styles, and he consistently comes up with profitable and attractive renovations for the interior of the home, including bathrooms, flooring, kitchens, plumbing, electrical, and walls. He can also help with exterior façade transformations that make the home or building stand out, highly upgrading its value.

Those who are interested in learning more about the asbestos testing and other services provided by N B Builder can check out their website or contact them on the phone or through email. They are open from Monday to Friday, from 7:00 am to 7:00 pm; from 9:00 am to 4:00 pm on Saturdays; and from 10:00 am to 2:00 pm on Sundays. Those who need to know their location and other important information can check out their Google Maps page at <https://goo.gl/maps/fLVb3jY6swH4QbTKA>.
