March 30, 2021 - PRESSADVANTAGE -

Prime Finish Cambridge located in Cambridge have announced that they have updated their painting service to include a full list of exterior house painting services.

The Cambridgeshire decorating company have revised the scope and spread of their exterior painting service to now include painting of every exterior surface that a residential, listed or commercial property may be in need of.

“When painting exteriors it’s vital you make the outside of the property as watertight as possible, the smallest crack can often lead to water penetrating behind the paint and blowing the render or rotting the timber,” commented Matt, the owner and hands on lead decorator of the company. “Our team of Painters can advise you on the best exterior products available, not necessarily readily available from your DIY store but tried and tested in the painting and decorating trade. Our painters have all the equipment needed to gain access to all the difficult to reach areas and can advise whether scaffolding or mini towers are needed.”

He went on to say, “We are approved contractors for Repair Care an epoxy resin timber repair system

?Specially developed for the long-term maintenance of public, commercial, listed and domestic properties, the Repair Care system provides huge cost saving benefits, whilst providing a sustainable alternative to replacement. Paint durability is significantly improved, extending maintenance cycles and protecting against future decay.?

With summer coming up it is proving to be a popular time to have one's property checked and book in for the required work. ?We do book up fairly quickly in the spring,? said Matt, ?It is advisable to call and check availability to avoid disappointment.?
