Arrowhead Clinic in Athens, Georgia, Shares Tips To Prove A Whiplash Injury

April 05, 2021

April 05, 2021 -

Arrowhead Clinic in Athens, GA, is a reputable name in the accident injury treatment niche. Chiropractors help victims of car accidents find relief from pain and suffering. Dr. Lou Pampena explains how car accident victims can prove a whiplash injury in a recent blog post. The blog post can be read here: https://www.arrowheadclinic.com/athens/how-to-prove-a-whiplash-injury.

The top Athens whiplash chiropractor has been treating accident injuries for many years. Dr. Pampena stresses the need for injury documentation to help with the accident victim?s claim, adding, ?If someone else caused your accident, you have the right to be compensated for your injuries.? The Athens car accident doctor shares a few ways to determine whether the accident victim has suffered a whiplash injury, which he says ?is a soft tissue injury that causes damage to your neck's muscles, tendons, and ligaments.? Dr. Pampena explains that whiplash doesn't show up on x-rays, and the victim may not realize they are suffering from the injury for several hours or days after the accident.

The car accident chiropractor in Athens lists some of the common whiplash injury symptoms that might surface after a few days, urging victims to see a doctor immediately after the accident to get the injuries

diagnosed immediately. Dr. Pampena warns that untreated injuries take longer to heal. According to the Athens whiplash chiropractor, a victim needs documentation of the list of prescriptions, testimony from family and friends to prove the impact of whiplash on the victim?s quality of life, a police report, and chiropractic testimony to prove their whiplash injuries. ?A written or court testimony from your chiropractor will allow them to explain how your whiplash diagnosis came about, the symptoms that led to the diagnosis, and the treatment options they have provided for you.? In a previous press release, Arrowhead Clinic in Athens explains how to treat whiplash injuries.

Arrowhead Clinic in Athens specializes in the treatment of accident injuries and whiplash. Any victim of a car accident in Athens, GA, deserves the best compensation. But before that, they need immediate whiplash consultation from medical experts. Whiplash chiropractors in Athens are experts in handling accident injury cases, diagnosing injuries, documenting medical reports confirming a whiplash, and designing a treatment plan.

Arrowhead Clinic in Athens has helped countless car accident victims recover from whiplash injuries. They refer patients to top Athens personal injury lawyers to help them win their injury settlement claim. Victims of auto accidents can schedule a free whiplash injury consultation with Arrowhead Clinic in Athens at 800-961-7246.

              "text": "In preparation for your Free Chiropractic Consultation, you will be asked to complete forms that provide background information about your medical history, condition, and symptoms you are currently experiencing.  Some of the questions included are:  When and how did the pain start? Where is it located? What activities or circumstances make it better or worse? Did the pain start as a result of an injury? It is crucial to know if the physical damage resulted directly from the Car Accident. Describe the pain - is it sharp, dull, burning, or throbbing? Does it come and go, or is it continual? The Exam with our local Athens Chiropractor  Once we know more about your medical history, the doctor will conduct a precise chiropractic exam that includes comprehensive tests such as blood pressure, pulse, respiration, and reflexes, as well as specific orthopedic and neurological tests to assess:  Range of motion of the affected part Postural Stability Muscle strength Neurological integrity Muscle tone Diagnostic Studies Which Provide Necessary Detail on How to Correct Your Pain Condition  Based on the results of your chiropractic exam and previous medical history, diagnostic studies are helpful in identifying structural abnormalities to more accurately diagnose your condition and provide compelling evidence to the insurance company why and where you need Chiropractic Treatment after an Auto Accident.  The most common diagnostic studies during your chiropractic exam include:  An X-ray exam Other laboratory tests if necessary and potential outside referral for an MRI  Goals and Report of Findings  Dr. Pampena at our Athens location will establish specific goals based on your X-ray and Exam Findings for your individualized plan of care:  Short-term goals include lessening pain and restoring normal joint function and muscle balance. Long-term goals are about reacquiring functional independence and tolerance to normal activities of daily living. Based on your unique situation, Dr. Pampena will determine how often you should come in to be treated. Sometimes it may be one time a week or it can be multiple times per week when you are in your acute treatment phase. ",
