Dumpster Rental Company Roll Off On The Go Rentals Has Launched A New Website

April 09, 2021

Rockville, Maryland - April 09, 2021 -
Roll Off On The Go LLC, a dumpster rental company serving Washington DC and surrounding areas, has launched a new website.

The website offers a list of all the company?s dumpster rental services, service areas, and contains an easy online ordering system. The company provides dumpster rentals for all kinds of jobs such as home remodeling, demolition, house cleanup, roof replacement or a new house project. Some examples of junk that they haul away are refrigerator disposal, garbage removal, mattress disposal, foreclosure clean outs, construction waste removal, yard waste removal, trash removal, appliance removal, television disposal & recycling, furniture removal, e-waste disposal, and hot tub disposal.

The online booking system first asks the customer to choose the size of the dumpster they require. It provides handy information about the dimensions of the dumpster along with rental limits and extra charges in an easy-to-understand format so that the customer knows exactly what they are paying for and what to

expect when the dumpster shows up at their doorstep. The company then asks the customer to select whether they are a homeowner or a contractor.

In the next step, the website requires the selection of a drop off date. After the customer selects the drop off date, they have two options. They can either select a single day rental which sets the pickup time at 5 PM on the same day as the drop off date, or they can manually select the pickup date from a calendar widget. The drop off time is always 8 AM whereas the pickup time is always 5 PM, giving the customer ample time to finish their work. Finally, the website requires the customer to enter personal details such as email id, first and last name, phone number, billing address, city, state, and postal code before transferring them to the payment gateway.

Roll Off On The Go offers dumpsters ranging from 10 yards to 25 yards. Customers can rent all dumpsters for up to 7 days for their base fee. The company charges an additional $10 per day for rentals exceeding the 7 day limit. The company also charges an additional $85 per ton for weight exceeding each dumpster?s weight limit. The company may also charge extra fees for locations outside of its service area.

The 10 yard dumpster is 14 feet long, 7.5 feet wide, and 3 feet high. It holds material equivalent to 4 pick up truck loads and includes 0.5 tons of weight included in its base price. The 15 yard dumpster is 16 feet long, 7.5 feet wide, and 4 feet high. It holds material equivalent to 6 pick up truck loads and includes 1.5 tons of weight included in its base price. The 20 yard dumpster is 16 feet long, 7.5 feet wide, and 5 feet high. It holds material equivalent to 8 pick up truck loads and includes 2 tons of weight included in its base price. The 25 yard dumpster is 16 feet long, 7.5 feet wide, and 6 feet high. It holds material equivalent to 10 pickup truck loads and includes 3 tons of weight included in its base price.

A review of the company? service by Mike K. says, ?Great service for several different services during a construction job. Two loads of dirt and a larger container of construction debris were handled quickly and at less cost than other similar debris removal companies.? Another review by Jose D. says, ?They were within the time frame that was given over the phone. Very quick and did a fabulous job at a reasonable rate. Would highly recommend their services! Great Job guys!?
