New York NY - Today, Arvind Bob Khurana, Esq. principal attorney at the Khurana Law Firm, P.C. announced the launch of a new website and logo design to better reflect their dedication to their whistleblower attorney practice.

With over 20 years of experience in qui tam, complex litigation matters, and class actions, Khurana Law Firm decided to update the firm?s website and logo design to focus on their qui tam and whistleblower attorney practice.

?At this point in time, we have come to believe that focusing our site on whistleblower and qui tam civil suits is where we want to put most of our efforts. Those who defraud Medicare are defrauding the federal government and causing us all to suffer,? Mr. Khurana explained. ?The government loses billions of dollars each year in fraudulent Medicare activity by health care providers. Our clients who come forward to file whistleblower claims are modern-day heroes, and we are honored that they have chosen us to represent

them. The new site and logo better communicate what we stand for today and afford people who are willing to come forward to report Medicare fraud an easier way to find us for help.?

Under the False Claims Act, Khurana Law Firm, P.C. brings fraudulent activity to justice via ordinary citizens who are willing to come forward to report instances of potential Medicare fraud. The firm represents clients in qui tam lawsuits on behalf of the federal government. Whistleblowers are often then joined in the lawsuit by the government to bring these fraudulent activities to light, hold responsible parties accountable, and recover money that has been fraudulently obtained.

Once a party committing fraud is found liable, the court can order them to pay up to three times the government?s losses in addition to penalties for each false claim that they have filed. The individual who reports it and files the whistleblower complaint can be rewarded 15 to 30 percent of the recovery.

?Although our name remains the same, we want our logo and website to represent our dedication to those who are willing to stand up to Medicare fraud on behalf of the government and all of us who diligently pay taxes. They agree to take on this risk when they see wrongdoing, and we believe they deserve the best legal representation possible,? continued Mr. Khurana. ?The new website and logo represent our desire and ability to offer our clients the most skilled representation possible and give them as much information as possible so they can make the right decision while weighing the consequences. We offer people who know of fraudulent wrongdoing a confidential, complimentary case review so we can determine if there may be a viable lawsuit.?
