

Haul It A Day Dumpsters Is Offering Dumpster Rental Services In The Twin Cities Area

April 20, 2021

April 20, 2021 - PRESSADVANTAGE -

Haul It A Day Dumpsters, a dumpster rental company based in Maplewood, MN, is offering its services to the Minneapolis-Saint Paul Twin Cities area. The company also serves the areas of Little Canada, White Bear Lake, Shoreview, Bellaire, Arden Hills, Roseville, New Brighton, Hazel Park, Lino Lakes, Mounds View, Hugo, Maplewood, Oakdale, Columbia Heights, Fridley, Weston, Blaine, Blaine, Woodbury, Oak Park, Mendota Heights, Brooklyn Center, Robbinsdale, and Stillwater.

Haul It A Day offers residential, construction, and commercial dumpster rental services. The residential services accommodate all needs from renovating a single room to cleaning out an entire household. The company drops off the dumpster at the exact residence and picks it up when the project is complete.

The construction dumpster rentals make available "roll off" dumpsters, which are open-top containers that have a side swing-open door, which makes for easy loading of bulky items. They can be used for more than just construction projects. They are ideal for debris removal after remodeling, renovating, or even rebuilding a home or office building. They are also preferred for certain residential projects. Roofers prefer roll off dumpsters for performing a complete roof tear off and replacement. They can also be useful for demolition debris removal.

The company's commercial dumpster rentals, also called "trash" dumpsters, are aimed at businesses and corporate office parks. These are the type of dumpsters one would find behind a restaurant, a gas station, at an apartment complex, as well as many other places of business. They are treated as a permanent fixture at their location with regular pickup and drop-off schedules.

The company accepts all projects whether they are big or small from renovating a small home to demolishing a large building. They deliver to residential areas, businesses, construction sites, parks, community events, and many other locations. The company offers information on its website about the pricing structure of

dumpster rentals in an article that is a recommended read for anyone mulling over the size of the dumpster to rent.

The list of general waste items that are acceptable includes, but is not limited to, things like household junk, furniture, clothing, paper products, and non-organic trash. There is also the option of "clean loading" dumpsters, which is when the dumpster only contains one type of material. Items that can be clean loaded include concrete, roofing shingles, wood, drywall, dirt, and rock, and many others depending on the type of project.

Some materials and waste products are off limits because of the laws prohibiting the dumping of hazardous waste, electronics, and other materials that can be a threat to the environment. This includes hazardous appliances like televisions, computer monitors, refrigerators, and batteries. It also includes hazardous materials like asbestos, tires, railroad ties, and contaminated soils. Prohibited hazardous fluids include fuels, paints, solvents, resins, and adhesives.

A spokesperson for Twin Cities Dumpsters talks about the company's strengths by saying, "When you come to us, you hire the best possible dumpster rental partners for your residential, commercial, or construction projects. We are proud of the high quality, hassle free service we provide. Our experienced team has seen it all and done it all. They are here to answer all of your questions and make your experience of hiring and using our dumpster rental service as stress free as possible. Contact us today to book the perfect dumpster for your project and find out why our clients trust us as much as they do."

A review of the company's service by Ian Forester says, "The service was very good. They were timely and reasonable with their cost. They contacted me in the middle of the time period I had the dumpster to see how things were going. They were here within a couple of hours to pick up the dumpster when I called."

The company can be reached at its phone number (651) 661-3993 or at its email id twincities@dumpsterlocal.com. Its office is at 2306 Londin Ln E, Maplewood, MN 55119.
