Senior Care Center, an online resource that helps families find the perfect assisted living facility or nursing home for their elderly loved ones, is highlighting the efforts that are being implemented in the Newport Beach senior living communities to combat the spread of COVID-19.

In Newport Beach, OASIS, a large Senior Center, is dedicated to meeting the needs of all seniors and their families. Many educational, recreational, cultural, and social services are offered, with an aim to help older adults live an enriched, active, and independent life. The Center is owned and operated by the City of Newport Beach and is staffed by a core of professionals who are responsible for planning classes and activities, working with seniors in developing new and exciting programs, providing support services and counseling, and helping family members who are concerned about their parents.

The Recreation & Senior Services Department of the City of Newport Beach is continuing to provide programs and activities under current State and County safety guidelines. OASIS personal training resumed on February 8, 2021. OASIS outdoor classes resumed on February 22, 2021. OASIS services, such as Meals on Wheels, Transportation, Social Services, etc. have remained active throughout.
