Minneapolis Water Damage Specialist 24/7 Kicks Off New Website

April 21, 2021

April 21, 2021 -
Minneapolis Water Damage Specialist 24/7, a company based in Minneapolis, MN, is happy to announce that they have recently launched their new website. They are a full-service restoration company serving Minnesota, offering key services like water damage restoration, mold removal, flood damage, fire damage restoration, sewage removal, and storm cleanup. With their new website, they expect their site visitors to enjoy a better user experience with better website loading times and ease of navigation.

Jeff Rudek, owner and founder of Minneapolis Water Damage Specialist 24/7, says, ?We?re the number one Google reviewed and rated Minneapolis water removal, clean up, and water damage restoration company serving homeowners and businesses for frozen pipe, basement flooding, flash floods, and raw sewage. Now, we?re happy to announce that we have just launched our new website, which should enhance your experience when you visit our site.?

The Institute of Inspection Cleaning and Restoration Certification (IICRC) has certified the Minneapolis Water Damage Specialist 24/7 as a Minneapolis water remediation, mold mitigation, and mold remediation company. They strictly comply with all OSHA, CDC, EPA guidelines and regulations. And because of the ongoing pandemic, they strictly follow all CDC guidelines for COVID-19 and provide both reactive and proactive disinfection services against COVID-19.

For their water damage restoration process, their initial focus is emergency water extraction. It is vital to focus on drying the water-damaged areas in the home or building, if possible, within 24 to 48 hours. This is to avoid mold growth and intrusive mold remediation and mold mitigation. The intrusiveness and scope of the water damage restoration service will depend on the type and level of water damage. In general, they will follow a certain process after flood cleanup, flood remediation, raw sewage cleanup, frozen pipes water removal, sewage removal services, and basement water removal in Minneapolis. Those who want to check out the Google Maps page of Minneapolis Water Damage Specialist 24/7 and get important information about the

company can click here.

The first step in the above-mentioned process is to dry out the water damaged furnishings. Water-damaged carpets may be salvaged if action is taken within24 to 48 hours and if the water is clean, which means it came from the main water line, toilet tanks, sinks, or exterior sprinklers. After that, they will find out if the padding, concrete, or wood subfloors, under the carpets are wet. If these are wet, they will use commercial dryers and humidifiers to dry them out. However, if the water is from sewage, they will employ a raw sewage cleanup process. Since sewage is a biohazard, they will need to replace the carpet, wood, and padding.

The second step in the process is the remediation of a water damaged drywall, which can retain moisture that serves as ?food? for mold. The wet drywall is therefore dried out. If the moisture level behind the wet areas of the drywall is too high after 48 hours, they will need to be replaced. Also, if the water came from sewage, the wet drywall will need to be replaced.

Minneapolis Water Damage Specialist 24/7 has several areas of expertise. These include: water, raw sewage removal; COVID-19 disinfection for homes and commercial buildings; mold mitigation and remediation; and water, sewage, and storm damage restoration.

Minneapolis Water Damage Specialist 24/7 can also help customers with regards to insurance claims. It is important to note that, in general, for water or sewage damage and mold cause by a frozen pipe or a storm or frozen pipe, most insurance policies will automatically cover repairs. However, for mold that has developed over an extended period of time and damages caused by a flash flood, many homeowners and businesses will find that their policies don?t automatically cover them, unless they have been specifically requested an added to the policy as a ?rider.?

Those who are interested in learning more about the restoration services provided by Minneapolis Water Damage Specialist 24/7 can visit their website at https://minneapoliswaterdamagespecialist247.com/, or contact them on the phone or through email. They can be contacted 24 hours day, each day of the week.
