

Woodinville Awards Store Announces New Equipment to Improve Production

April 29, 2021

April 29, 2021 -

Woodinville, WA ? A local Woodinville awards store, Northwest Trophy, Inc., has announced that they have added a new piece of equipment to their lineup ? a laser engraving machine. Northwest Trophy is excited to be expanding its production floor and explains that this new addition will help them ramp up production to meet tighter deadlines and higher demand.

The recently purchased laser engraving machine is faster and more powerful than some of the equipment previously used. The team at Northwest Trophy is expecting the ability to increase production by two to three times with the new laser, and they will be able to use it on almost all their engraving projects. The laser is made for a variety of materials and can be used for most awards. ?The limitations are mainly on the size of the item to be engraved. The item cannot be more than 9? in height or 29.5? in length,? says Seth Breckenridge, a longtime member of the Northwest Trophy team.

In addition to this new laser, Northwest Trophy has an impressive line of equipment, including a UV printer,

rotary engraver, trophy plate engraver, and sublimation heat presses. Their expertise even goes beyond the most common awards. What many do not realize is that they also specialize in screen printing, embroidery, and patchwork.

Northwest Trophy has been in the business of trophies and awards since 1938 and, ever since, they have been focused on the vision of providing quality and affordable products such as trophies, recognition awards, promotional products, and of course, engraving in Woodinville.?They are proud to be family-owned and operated and take pride in providing outstanding customer service to help their community celebrate any occasion. For orders and inquiries, customers can browse their online catalogs on their website, www.nwtrophy.com/, or give the showroom a call at (425) 485-4149.
