Whitehat SEO Publishes Blog Post Offering Advice on SEO

September 24, 2015

September 24, 2015 -
London, UK, SEP 18, 2015 ? When it comes to online marketing, Search Engine Optimization (SEO) services are a vital component. While many marketing firms specialize in SEO services, not all SEO companies deliver what WhiteHat SEO promises. In keeping with their mission to educate website owners, White Hat SEO (www.whitehat-seo.co.uk) has just published a new blog post entitled 'The Perfect SEO Solutions Provider for Your Business'.

The article discusses how The Custom Content Council recently carried out a survey among CMOs and 90% of them responded that custom-made and valuable content improves audience attitude.

?We want to create a positive image of your business,? states Clwyd Probert, author of the article and founder of WhiteHat SEO. ?We Create and Draw Natural Links from Authority Sites. We come up with highly valuable content and this makes it easy to bring in links from authority sites.?

The article continues to relate how a large number of SEO providers will just focus on the technical aspects of SEO such as links, traffic, rankings, and SERPs. It then notes how WhiteHat SEO will address more than the

technical stuff because they actually understand their clients? needs.

?This is essential as your partner choice will have a big influence your online presence,? stated Probert. ?They have to consider your marketing goals when they are designing strategies. All the effort they put in should be directed at attaining your company?s objectives. So the company you select to manage your online marketing should be able to design a plan to help you achieve success on the internet which can only happen if the provider take the time to understand your marketing and overall business objectives.?

The article continues to further explain how WhiteHat SEO will also perform things such as establishing Google+ authorship, improve site and URL structure, take full advantage of Social Publications and Social Media and provide Search Engine Tag optimization.

Whitehat SEO Ltd. personalises their approach to SEO projects allowing them to provide guidance, clarity and the opportunity to move their clients far ahead of competitors while drawing from established systems in delivering services, as well as keeping up with recent trends and developments in the industry.
