Bluffton, SC - Professional Painters of Hilton Head assures to cater to all kinds of customers and all project sizes. "We can paint any size project and provide the best painting services," the company states.

One of their specialties is the custom painted finishes to ensure the final aesthetic of the painting job, especially for cabinets. Professional Painters of Hilton Head says kitchen cabinet finishes bring out the style and taste of the homeowner. They say some prefer a subtle finish, while others opt for a striking one.

Their service for Hilton Head Custom Painted Finishes focuses on ensuring a beautiful finish that suits the cabinet material. The professional painting company points out the different finishes that are available in the market. First is a natural finish cabinet to showcase the natural and true color of the wood. "We do not stain or dye them. We simply sand and oil the wood until the process is complete," they add.

Professional Painters of Hilton Head can also cater to waterborne finish, which can dry quickly because they are dispersed in water. This type of finish is scratch-resistant and does not contain a lot of volatile organic compounds. They also offer stained and glazed cabinet finishes for those who want to try a different look and

play on the wood colors.

Furthermore, they also offer an opaque finish for those who want to try robust colors to match the home color. They also provide a varnish finish which can be achieved by combining oil and resin. It helps cabinets become more durable, heat resistant, corrosion-resistant, and prevents yellowing with age. And lastly, there is also what they call a distressed cabinet finish. It creates an old and worn-out look for a vintage feel.

Apart from Beautiful Custom Painted Finishes in Hilton Head, the company also offers Kitchen Cabinet Painting, Cabinet Color Change, Classic Cabinet Refinishing, and Cabinet Refacing. Professional Painters of Hilton Head is also a leading company providing professional interior and exterior painting services.
