Prime Finish a traditional Cambridge based decorating Company that caters for all aspects of interior decorating, for domestic and commercial requirements have today announced their new look full interior decorating services.

The family run Cambridgeshire decorating company have taken time from the beginning of this year to restock and restructure their scope and spread of the interior painting service. They now specialise in all aspects of design, consulting and supplying the service. They offer this new and improved decorating to all residential, listed or commercial properties that may be in need of updating.

“We have found that good preparation is the key to a high-quality durable finish and our team will always thoroughly prepare whatever substrate they’re working on to ensure high quality, long lasting, flawless finish our customers have come to expect,” said the company spokesman, “Preparation is often the area where most homeowners attempting DIY don’t spend enough time on, this often results in a poor quality finish, whereas professional team will often spend much longer preparing the job than painting it.” He went on to say, “We know that when it comes to decorating, it’s important to take the time to prepare all surfaces

properly and thoroughly. To achieve the best finish, our decorators have to sand all surfaces before and in-between coats of paint, this can often be messy and creates a lot of dust and grime. We always carry plenty of dust sheets and equipment to make sure we keep the area as clean as possible and won't leave a mess for the property owner to deal with after we leave.?

The company has gained a reputation for the high level of their workmanship, many of their customers routinely recommend them to others looking to change their homes. The companies feedback can be seen on their main website.
