Camden, AR ? GSP Pack & Ship is not only well-known as a trusted shipping store in Camden, AR, but they are also a large distributor for church supplies in the mid-south. Recently, GSP has announced its stock of new products that offer a safe and sanitary way for churches of all sizes to participate in communion services.

With COVID-19 changing the way almost everything operates, churches are having to adjust as well. This means taking more precautions to ensure that church members feel safe participating in all services and activities. With communion services being such an important part of many church services, the safety of those taking communion has become a top priority. GSP Pack & Ship is now a retailer of two new products designed to provide a sanitary and simple way to take communion.

The Fellowship Cup Prefilled Communion Cups are the most convenient new product, as they come prepackaged with both the wafer and juice in one pack. Simply tear back the air-tight seal on top for the

unleavened wafer, and then peel back the remaining seal to drink the grape juice.

Another COVID-friendly method for communion is the Double Cup Solution. Using the empty communion cups, churches can fill one cup with the juice and place a single wafer in a second cup. Stacking the juice cup onto the cup with the wafer creates an easy grab-and-go solution to passing around multiple trays during the communion service.

GSP Pack & Ship is proud to serve the Camden, AR community and surrounding areas with top-notch customer service and competitive prices to meet any demand. In addition to providing expert packaging and shipping services, GSP Pack & Ship has a wide range of products and supplies for churches of all sizes. Their expert staff understands the meaning of customer care and works hard to ensure a smooth and fast experience for their customers.
