Expert Spokane Painters At Routon Painting And Handyman Offer A New Painting Service In Spokane, WA

May 12, 2021

May 12, 2021 -
Spokane, WA based Routon Painting and Handyman is pleased to announce that they are now offering exterior painting services for homes and businesses in Spokane, WA and the surrounding areas.

Routon Painting and Handyman is a locally owned-and-operated business made up of professional painters who are capable of providing top quality painting services for both residential and commercial properties in the greater Washington area. The company was founded back in 2016 by Mike Routon, a Spokane resident for over 14 years. Mike has been working in the construction industry for around 10 years already when he decided to start Routon Painting and Handyman. The company has since expanded to serve the west side of Washington State in areas such as Snohomish County, Camano Island, Everett, Marysville, Stanwood, Arlington, Mt. Vernon and the surrounding areas. Routon Painting and Handyman also prides itself in having all the equipment and experience needed to take care of any paint jobs and home projects that their customers may need.

Routon Painting and Handyman offers a wide variety of services. They specialize in exterior and interior painting for both residential and commercial projects. Routon Painting and Handyman understands that when it comes to providing painting services, trust and quality should never be compromised. As a result, they do their best to provide top quality workmanship and superior customer service at affordable prices. They pay special attention to detail, promptly return and respond to calls and communicate effectively with their customers. They also offer color consultations to help customers decide which colors are best suited for their properties.

The company also offers kitchen and bathroom cabinet painting and renovation services. Homeowners may have kitchen or bathroom cabinets that look old, outdated and are in need of a fresh coat of paint. Routon

Painting and Handyman offers to refinish and paint these cabinets to make them look as good as new once again. Another service that the company offers is epoxy floor coatings. They can coat and restore old concrete floors with epoxy and even add flakes and unique textures to make them stand out.

Routon Painting and Handyman provides home renovation services as well. Those who want to have their basement, kitchens or bathrooms finished can count on Routon Painting and Handyman to do an excellent job. They are welcome to check out the Routon Painting and Handyman BBB page to learn more about their services and view numerous positive reviews that they receive from other customers.

Routon Painting and Handyman?s commitment to quality has also earned them positive reviews on other online review platforms as well. Megan Albright says in a 5-Star Google review, ?Mike and his crew are hands down the best team we?ve ever had do work at any of our homes. Mike is incredibly responsive and was able to get us on the schedule pretty quickly. We had gotten lost in our laundry list of ?wants? when we moved into our house, and he was effectively able to help us distill our ?must have?: painting the walls and ceiling which had all been the same builder-grade beige. Mike helped us pick a paint color and provided suggestions (never directives), which we are so happy to have listened to. Our house looks and feels completely different with a sharp white ceiling and gray walls. Mike uses the best quality paint, an important factor when choosing a painter (no, seriously ? have you ever tried to clean a wall and accidentally took off the paint? I have. That will not happen with this paint!!) We can?t wait for Mike and his team to help us with more projects!?

Joshua Page says in another 5-Star Google review, ?Mike and his group painted my house this spring and did a wonderful job. Mike made the process very easy by being a great communicator, provided valuable expertise and advice, presented solutions to problems and followed through with the work from start to finish. The painters were friendly, efficient and did a great job on our 1950's home that was in desperate need of new paint. I would recommend Routon Painting for your next project.?

Those looking for a trusted painting service provider in the greater Washington area may check out Routon Painting and Handyman?s website for further details. Customers are also encouraged to learn more about the company?s history in the field and their goals by clicking on the About Us tab.
