New SafeAir Certified Mold Inspection Inc. Video Post: "Do All Houses Have Mold"

May 05, 2021

May 05, 2021 -

SafeAir Certified Mold Inspection Inc. is one of Atlanta?s most trusted indoor air quality companies. SafeAir has been providing metro Atlanta with mold inspection and mold testing services for more than ten years. Today, they announce their latest post in their blog series of Frequently Asked Questions. Owner, Jeremy Shelton, takes user-submitted questions and answers them in brief one to two-minute videos. In the latest post, Jeremy answers the question, ?Do All Houses Have Mold??. The video and corresponding blog post can be found on the company?s website under the blog section.

When asked for a comment about the blog series, Shelton had this to say, ?Fact of the matter is, every house has mold spores. Helping homeowners recognize when they need professional help is our mission here at SafeAir. I get calls every day from homeowners who have been offered mold remediation or waterproofing services for mold problems they don?t have. It?s our mission to help homeowners understand what?s in the air they breathe and how it impacts their daily life.?

Homeowners located within Atlanta, Sandy Springs, Roswell, Marietta, and other surrounding Metro Atlanta areas suffering from toxic mold exposure are invited to speak with the SafeAir Mold Testing team to schedule a free consultation.
