

## **Tradie Bookkeeping Services Now Being Offered On The Sunshine Coast**

*September 24, 2015*

September 24, 2015 - PRESSADVANTAGE -

Tradie Bookkeeping Specialists, based in Queensland, Australia, has announced that they are now offering specialized book keeping for tradies. When it comes to tradie book keeping, businesses in the Sunshine Coast are finding that there is not enough specialized information out there. Tradie Bookkeeping Specialists aims to address this problem.

"I was a tradie myself," says Ari Sturdee from Tradie Bookkeeping Specialists. "This means that I know all of the requirements for book keeping for people in this industry. I have made this my specialization and I want to offer my services to any tradie who wants to have their bookkeeping done properly."

Sturdee will offer a fully comprehensive service. This ranges from basic accounts to complex GST, BAS, Superannuation and OH&S requirements. He also offers additional services, including ASIC & ABN registration, as well as admin support. When it comes to book keeping Sunshine Coast businesses have already been flocking to Sturdee's company in the hopes of being able to contract him to perform their bookkeeping.

"I am offering all potential clients a free 30 minute consultation," adds Ari Sturdee. "This will show them what I feel needs to be done in their business. I will also demonstrate how this can help them grow, by identifying ways to move forward. I am excited about this and judging by the responses I have had so far, other people are excited, too!"

The services offered by Tradie Bookkeeping Specialists are extensive. While bookkeeping lies at the heart of their operations, as stated above, the tradie book keeping Sunshine Coast businesses can use has a range of other features designed to promote better and faster growth. For instance, they can help record transactions, perform reconciliation and payroll. Furthermore, they can deal with IT and online marketing elements, including email and domain setup.

The services offered by the company have been positively reviewed since having first started. "Ari is more like my 2IC than my bookkeeper," says Sheldon Dwyer. "I have ventured out on my own over the last couple of years and Ari has looked after all my paperwork - not only the accounts side of things but also admin, OH&S, take and make telephone calls, filing, post and insurances. I hate paperwork so with Ari there to support me, I can get on with my job knowing she will look after me and my paperwork. She has been a great sounding board for me as well and I would not be able to do my day-to-day grind without her. I would suggest to anyone needing to pass on the headache of accounts and paper work to contact Ari."
