The Art of Dentistry, based in San Diego, California, is pleased to offer their expertise in Cosmetic dentistry to their local community. The dental clinic also provides their community with sedation and general dentistry as well as gum disease treatment. Their dedication to the well-being of their patients has earned them a reputation for being one of the top dental care providers in San Diego. Learn more here: Best Cosmetic Dentistry In San Diego.

The Art of Dentistry makes it a point to guide each patient through the detailed and holistic smile makeover process, ensuring that their unique needs are met along the way. From initial consultation to final follow-up appointment, the goal is to bring out each patient?s natural smile. As some of the best cosmetic dentists in San Diego, the clinic?s staff holds advanced certifications in post-doctoral training for cosmetic and restorative dentistry. The clinic provides a range of treatment options which include porcelain veneers, teeth whitening, Invisalign, implants and fillings and CEREC crowns and veneers. They also offer the most advanced solutions to ensure that all of their patients have a smile that is healthy and beautiful. Since no two patients are the same, the clinic may recommend a combination of treatments to help a patient reach the desired result.

One of the popular treatment options are porcelain veneers, which were pioneered by Hollywood dentists in the 1960s. During this process, the dentist attaches a carefully fitted porcelain veneer or ?shell? onto the natural tooth. Each veneer is carefully crafted and chosen to enhance a patient?s natural smile. Porcelain is more a realistic and comfortable material, making it a popular choice for a wide range of patients. The clinic also offers teeth whitening, as they recognize a beautiful smile is important to a majority of their patientele. Contemporary whitening solutions are faster and more effective than ever, and the clinic points out that in-office whitening may give patients better results than at-home solutions.

The Invisalign® system allows a person to straighten their teeth without the burden or discomfort of traditional braces. As a removable, virtually undetectable solution, hundreds of patients are finally experiencing the perfect smile they wished they had. As one of the most advanced and best cosmetic dentists in San Diego, the Art of Dentistry is proud to offer CEREC crown and veneer technology. CEREC crowns can be customized, created and fitted within a single day. With proper care, they can last 10-15 years. This makes them one of the fastest and most natural-looking cosmetic dentistry services offered by the clinic. When developing treatment plans, the clinic will consider the ?whole health? of the patient. In some cases, surgical treatments or tissue reshaping may offer an ideal solution. The clinic works with the most experienced and trustworthy oral and maxillofacial surgeons in the industry to ensure their patients receive comprehensive care.

The expertise of the team at The Art of Dentistry is evident in their many positive patient reviews. In their 5-Star Google review, Suzanne Weiss states that, ?I found this office based on their excellent reviews when I first moved to California almost eight years ago. My experience with them has lived up to their reputation, and I would never go anywhere else. I have referred my husband, my son and my best friends to the office as they really have their act together and do very high-quality dentistry. I was raised in a family of dental professionals and know what to look for in a dentist and staff. The office is immaculate, they are extremely accommodating and Dr. Landau is extremely skilled, gentle and never gives me anything I don?t absolutely need. This is a world class practice and very highly recommended.?

The Art of Dentistry is led by some of the best cosmetic dentists in San Diego. Behind the scenes, the clinic?s friendly team of hygienists, technicians, and administrators work hard to make sure that every appointment is efficient and enjoyable. The credentials of the experts contribute to the high standard the clinic maintains. Dr. Addleson is one of only 45 dentists in the world to earn the title of ?Accredited Fellow? of the American Academy of Cosmetic Dentistry (AACD). Dr. David Landau is one of only 400 dental professionals in the world who has earned the distinguished credential of Accredited Member of the American Academy of Cosmetic Dentistry (AACD). Dr. Campbell is a recipient of the title, Fellow of the Academy of General Dentistry and was one of only nine dentists to be awarded General Practice Residency in the U.S. Navy.
