

## **EPS Landscaping & Tree Service Proudly Serves Community Of Pembroke Falls**

*May 17, 2021*

Pembroke Pines, Florida - May 17, 2021 - PRESSADVANTAGE -

Pembroke Pines, Florida based EPS Landscaping & Tree Service LLC is pleased to announce that they are providing quality and affordable tree trimming and pruning services to residential and commercial property owners in Pembroke Falls and the greater Broward County area.

EPS Landscaping & Tree Service asserts that many people do not realize the fact that trees are just like any other living creature that needs to be taken good care of. For example, tree branches can grow too long and weigh down specific sections of trees. They can also die and eventually fall off during storms, potentially damaging people?s homes, cars or even power lines. Fortunately, these situations can be prevented with the help of tree trimming services that EPS Landscaping & Tree Service offers. Tree trimming does not only increase home safety, it can also help trees remain healthy and beautiful by emphasizing their natural shape.

EPS Landscaping & Tree Service also provides tree pruning services, which are useful for preventing the spread of harmful plant diseases. However, pruning or cutting tree branches should not be done at

random because it can affect the growth pattern of the tree. As such, it is important to employ a professional tree pruning service to make sure that the tree limbs are cut properly. Tree pruning companies, such as EPS Landscaping & Tree Service, are also capable of carefully evaluating trees to detect plant diseases and infections. They can then prune the infested tree branches and foliage to ensure maximum tree health.

Another professional service that EPS Landscaping & Tree Service provides is tree removal. Trees are beautiful and helpful most of the time, but there are instances when they need to be removed for a variety of reasons. They may die, become too damaged or too infested and may have little structural integrity left. They can also grow too big and pose health and safety hazards to nearby property and residents. Tree removal is also necessary when tree roots grow too close to people's homes or when the tree itself begins to lean towards houses. Trees may similarly get in the way of construction projects and must sometimes be removed so that the construction process can continue without any further delays.

Notably, EPS Landscaping & Tree Service also provides professional landscaping services. Landscape design is the act of modifying an outdoor space's appearance and is divided into two main categories. The first category is hardscaping where physical objects are used to improve the appearance of an outdoor space. The second one is softcaping, which refers to the utilization of plants to enhance the curb appeal of a property. Homeowners can decide on which type of landscaping they would get for their property depending on their needs and tastes.

Landscaping is useful for improving a property's aesthetic appeal as well as increasing its value. However, landscaping takes a lot of work that involves making a rough outline, taking necessary measurements, planning design placements and understanding the surrounding ecological and soil conditions. Fortunately, EPS Landscaping & Tree Service is ready to provide their expertise so customers will not have to worry about doing the landscaping themselves.

Cheyn B. says in a 5-Star Google review, "Had a great experience with EPS. We called for an estimate and not only did they answer the phone immediately, they came out within two hours for a quote. By week's end, my garden beds were refreshed and looking awesome again! Thank you, Greg and Jessica, for your prompt service and reasonable pricing."

Meanwhile, Gina M. says in another 5-Star Google review, "I called EPS Landscaping & Tree Service to trim my palms ahead of the last tropical storm. Not only do my palms look fantastic, I didn't have to be out after the storm picking anything up from my yard. The team was knowledgeable and courteous, and customer service is exceptional. Greg and Jessica will take care of you the right way!"
