

Roof.net Receives Two More Five-Star Reviews on Google

May 20, 2021

Fairfax, Virginia - May 20, 2021 -
Roof.net, a roofing repair or replacement company based in Fairfax, VA, is proud to announce that they have received two new five-star reviews via Google Maps. One client, Austin G., was amazed by the quality of the roof provided at a reasonable price. He advises other homeowners not to hire roofers who simply say they will fix the roof at a cheaper price. The other client, David W., noted that owner Ken Briesemeister was always true to his word, performing high quality replacement of his old roof in under a week.

Austin G. said, ?These guys are amazing! Saved my roof from the 'other guys' that said they would fix it for cheaper. These guys are the real deal. Don?t even think twice.? Ken pointed out that they always strive to provide the best possible service that includes all upgraded products at an affordable price. Naturally, customers will find the quality of service provided unmatched in terms of price. More about this five-star review can be gleaned from https://goo.gl/maps/RGBSyHVNU6LYM6Xg7.

Roof.net provides different kinds of roofing services in Fairfax and neighboring areas. These include roof

repair, roof inspection, roof cleaning, and roof replacement. It should be noted that a roof begins to age and deteriorate right after it has been installed. Thus, homeowners are advised to have the roof inspected on a regular basis. This will ensure that any hidden roof problems are discovered as early as possible and the necessary repairs are done. Hidden roof leaks can compromise the home structure and result in the deterioration of parts of the home, especially the structural elements. Water getting inside the home can also damage o furniture and other belongings. Because of the higher humidity, black mold may also grow and possibly result in health problems for certain vulnerable members of the family.

In his five-star review for Roof.net, David W. said, ?Ken at Roof.net is a honest person. He does what he said in a timely manner. He put a new roof on my house in less than a week. He also took after photos and materials use for the job. So you know exactly what he going to do. Thanks again Roof.net.? Ken pointed out that they have made it a habit to always supply customers with photos of the roof before they worked on it and then after they are done. The photos serve as documentation of the quality of their workmanship and that everything was done exactly as specified in the contract. More about this five-star review can be gleaned from https://goo.gl/maps/UHgQBT7VQfPSU3kX7.

The Roof.net roofing professionals mainly use asphalt shingles as roofing materials, including fiberglass asphalt shingles, laminate shingles, timberline or architectural shingles, and three-tab shingles. They can provide a comprehensive roofing system that has several components, including roof and deck protection, water and ice shield, high-quality shingles, attic ventilation, and ridge-cap shingles for additional protection.

The crew establishes the best possible strategy for solving the homeowner?s roofing problem. Whether it is a simple solution of replacing a few shingles or there is a need for total replacement of the roof, they are able to provide the appropriate solution. In addition, Roof.net offers same-day roof repair for emergency situations, such as after a storm. The roof may have been damaged by a falling tree or branch, or by strong winds. Same-day repair is necessary to prevent water from leaking into the home for a prolonged period, which can cause damage to the client?s belongings in the home or even weaken the foundation.

Homeowners and other property owners who are interested in learning more about the roofing services available through Roof.net can visit their website at https://roofnet.business.site, or contact them via telephone or through email. They are open from Monday to Saturday, from 8:00 am to 5:00 pm.
