

EPS Landscaping & Tree Service of Pembroke Pines Now Taking New Customers

May 24, 2021

Pembroke Pines, Florida - May 24, 2021 - PRESSADVANTAGE -

Pembroke Pines, FL based EPS Landscaping & Tree Service LLC is pleased to announce that they are providing professional tree care services to the local community of Pembroke Pines and the surrounding areas.

Pembroke Pines is a one-of-a-kind location in the country. It is quite large, ranking among the top ten largest municipalities in Florida. Despite being pretty sizable, Pembroke Pines retains a sense of community and coziness. This allows residents to feel comfortable and right at home. This combination of size, sense of community and coziness is one of the main reasons why Pembroke Pines is considered as one of the best areas in America to live in.

One of the communities within Pembroke Pines is Pembroke Falls, a gated and master-planned community with an emphasis on active lifestyles. It has several comfortable and useful features and amenities such as stocked lakes, beautiful landscaping, and miles of sidewalks for walking or jogging. It also contains an 18,000

square foot community clubhouse with a fitness center, an aerobics studio, a grand ballroom, a heated pool and much more. Pembroke Falls also provides easy access to major highways and shopping centers, making it not only a comfortable place to live in but also a convenient one. When living in great locations such as Pembroke Pines and Pembroke Falls, residents do not have any reason to miss out on making their home look and feel the best. They can achieve this goal with the help of EPS Landscaping & Tree Service.

EPS Landscaping & Tree Service is simultaneously a tree care service and a landscaping service. With their expertise in both fields, they can help their clients achieve the ideal look for their homes.

EPS provides tree planting and tree installation services. Planting trees is very useful for improving the appearance and color of a lawn. However, the advantages of planting trees extend far beyond just the aesthetic impact that trees provide. Trees absorb carbon dioxide and polluted air, allowing people to breathe better-quality air. They also provide shade against the harsh sun rays. The shade that trees provide also allows people to spend less energy on keeping their home cool, thus saving them money in the long run. Trees can even improve an individual's mental health by helping reduce stress and anxiety.

All in all, planting trees is a worthy investment that provides a lot of return. People can choose to plant trees themselves, but they should hire professional tree services (such as EPS Landscaping & Tree Service) in order to achieve the best results. Planting trees must not be done without some serious planning. After all, trees will not always grow strong and healthy if they are planted in random locations. People need to make sure that the trees they plant will have enough room to grow up and the soil in which they will plant the trees is suitable for holding and sustaining trees. Additionally, they must be planted carefully so as to not disrupt or damage nearby homes and power lines.

EPS Landscaping & Tree Service also provides tree removal services. Trees may need to be removed in various circumstances, such as when they die or become severely infected and grow too large or too close to nearby houses. They may even pose potential danger to local residents' wellbeing if their structural integrity has been compromised. When faced with these situations, property owners can count on EPS Landscaping & Tree Service to properly get rid of their trees.

EPS Landscaping & Tree Service has earned great reviews from their customers. Vanessa A. says in a 5-Star Google review, "Jessica was the best to be in business with! Called her last minute to get some landscaping jobs done, and her team did amazing! Everything looked great, and I love how efficient they were. Wouldn't work with anyone else. Look forward to working with EPS landscaping on all my landscaping needs."

Gina Maria Marin says in another 5-Star Google review, "I called EPS Landscaping & Tree Service to trim my palms ahead of the last tropical storm. Not only do my palms look fantastic, I didn't have to be out

after the storm picking anything up from my yard. The team was knowledgeable and courteous, and customer service is exceptional. Greg and Jessica will take care of you the right way!?
