Paver Patio Contractors Take On New Projects In St. Augustine

June 01, 2021

ST. AUGUSTINE, FL - June 01, 2021 -
St. Augustine, FL based Florida Coastal Contractors, LLC is pleased to offer their expert assistance to homeowners and businesses with their paver patio installation projects. The company, which already has a sterling reputation for excellent service, is currently encouraging customers to get in touch for a free design consultation.

?A home or business owner can invest in their property for a multitude of reasons,? observes Jessica Shafer of Florida Coastal Contractors. ?These reasons may be as simple as making sure the property accrues value over time or as personal as ensuring that it is a valid representation of its inhabitants as well as everything in between. Whatever your reasons for investing in your property, however, you always want to get nothing but the best to make sure your vision is brought to life exactly how you see it. This is the role we try to fulfill on every project we take on.?

According to Shafer, a patio is a crucial element of a property?s overall charm and ambiance, lending both visual appeal and practical value when implemented correctly. A patio that has been carefully constructed with the right paving stones can help transform a backyard into a space that serves a specific purpose or welcomes a large variety of activities ? whatever the owner wishes. The company considers it their mission to take a customer?s initial ideas and fill in the gaps with their technical knowledge and industry experience, taking a concept from the drawing board to the real world.

In some cases, a customer will know exactly what they want, and the company will execute the job exactly as envisioned. On the other hand, some may only offer the team a vague direction to begin with. Shafer assures customers that the contractors at Florida Coastal Contractors will be more than happy to share advice and suggestions that the customer is free to select from (or adjust as they see fit). Many examples of this can be seen on the company?s Facebook Page.

The team at Florida Coastal Contractors wields more than 20 years of experience designing, installing and maintaining high quality paving stones for both commercial and residential properties. They can produce all manner of stone, concrete and brick pavers to suit every hardscaping need, no matter how simple or intricate. Given that the company has also made it a point to include their customers at every stage of the process, they are all but guaranteed to deliver an outcome that all find satisfactory. Notably, the team has received numerous positive reviews that compliment their work ethic and customer service.

?We're extremely happy with the work that Florida Coastal Contractors did for us,? says one 5-Star Google review from Denise T. that serves as an example of how the company considers their customers? input when implementing a design. ?They extended our pavers, built a seating wall, added lighting and added an amazing pergola with a fan and lighting outlet. We showed Shane a drawing of what we wanted, and his team executed it very well. The pergola is even more incredible than we had imagined ? it's extremely well built and high quality. Overall, the workmanship is top notch without any flaws, and for that I would highly recommend and use them again!?

An excerpt from a more detailed review from Bryan C. also indicates just how pleased the customer was with the company?s efforts. They explain, ?Originally, I wanted to get quotes from at least three to four contractors. Florida Coastal Contractors was the second one and after meeting with Shane I knew that I didn't need to look further. Not only did he quote me at 10K less than the first company, but Shane took the time to draw out and explain the cost of everything.?

The review later adds, ?They also put up with our questions and changes during the process in a friendly manner. Everything came out much better than expected, and Shane even gave my son a birthday present! The crew did an incredible job cleaning up when they left, including packing down the spots in the grass where they had parked. I would absolutely recommend Florida Coastal Contractors without hesitation.? This review awarded the company a full 5-Star rating as well.

Jessica Shafer and the rest of the team at Florida Coastal Contractors, LLC look forward to hearing from customers who wish to discuss a future paver patio installation project. They can also be reached through their social media platforms. Learn more about the company through their official website and Yelp Business Page.
