

## **Bounce House & Water Slide Rentals Available In Boerne**

*May 28, 2021*

Boerne, Texas - May 28, 2021 - PRESSADVANTAGE -

Boerne, Texas-based Born2Bounce Party Rental is reaching out to the community to talk about their two most popular services: bounce houses and water slide rentals. The company has a great deal of experience bringing parties of all kinds to life.

"At Born2Bounce Event Rentals, we try to give a breath of fresh air to the age-old bounce houses and waterslides, which have been around for as long as we have memory," states the company. As a full-service party rental and event provider, Born2Bounce focuses on offering clients a first-class entertainment experience that is tailored according to the event, the theme of the party and the activities planned.

"You can always count on the beauty of our inflatable houses and castles to light up any party," states the company. "We have a variety of units that can match the theme of any party, complementing the scenery of your venue with a beautifully decorated bounce house. We can help you plan the event with a theme in mind and even put together activities that spur competitive gameplay between family and friends with our bounce

and slide combos."

Born2Bounce also offers water slide rental services, which are widely popular as a way to cool down in the hot Texas weather. These come in a large variety of sizes and themes as well, with different options depending on the location and size of the party. For those looking to host different activities at their venue, the company notes that they can opt-in for a water bounce house combo, which is one of the most in-demand options for toddlers and kids.

For those looking for a different, extraordinary experience, Born2Bounce offers obstacle courses where attendees can run, jump, climb and slide their way through exhilarating courses. This is also a beloved option among those looking to entertain high-energy kids at different events, whether it is a birthday party, or a school or church event. The obstacle courses range from 30 feet to almost 100 feet long, being the perfect venue for a fun and friendly competition.

Another possibility offered by the company is foam parties. This is one of the best ways to make water slide rentals even more fun or a way to keep a big group of students entertained during a fun spring field day. Foam parties offer cool, safe fun for everyone involved. Their foam is gentle to the skin and non-toxic. These parties can be ordered by themselves, or as an addition to any of their great party or event rental services.

Born2Bounce's products are complemented by great customer service, a promise of excellence and commercial-grade, cleaned, sanitized equipment that is inspected after each rental to guarantee safety and peace of mind. The team works with their clients throughout the rental process, helping with the planning and details necessary to make the event happen. Clients can book online 24/7 and get real-time of the items available for rent at the specified date.

Born2Bounce is one of the best-rated event providers in the area. They have received many reviews that attest to the excellence of their services, some of which are highlighted on their website. One of these comments states, "Sean was very professional and ensured all the activities were set up on time. He coached us on how to operate the popcorn and cotton candy machines. His team was professional and ensured the safety of our associates playing on the inflatables. We would highly recommend them. Great job!"

Another review from a satisfied client says, "I was impressed with this company! They were very professional, pleasant and extremely helpful! I called only a few days before our event and were so lucky they had some things we could use! We will definitely contact them for our next event as well as recommend them to anyone who needs bouncy houses!"

The company's website offers more details on Born2Bounce Party Rental and their services.
