Pensacola, FLA. ? As the leading Pensacola mattress store, Mattress Outlet is a trusted name in their community as an expert in all things sleep. The store is known for its exceptional service, affordable prices, and affordable lines of name-brand mattresses and box springs. This month, the mattress specialists are highlighting their selection of adjustable mattress bases.

For those who suffer from sleep apnea, asthma, and snoring, an adjustable base can be a reprieve. Sleep apnea, asthma, and snoring are all caused by breathing problems. The ability to elevate a mattress to lift the head helps to remove the added weight from the windpipe, allowing for better airflow while sleeping. Additionally, the adjustable base can ease the pain and anxiety caused by insomnia by creating several different positions, making it possible for the afflicted to find the most comfortable, restful position.

The specialized mattress bases are designed with three separate sections with head and foot portions that can be moved independently. This offers increased flexibility over how the body can be positioned when sleeping or relaxing in bed. Accordingly, the mattresses for adjustable bed frames will need to be equally as flexible to accommodate the movement of the base. Mattress Outlet's extensive line of hybrid, latex, and memory foam mattresses make up the best choices to accompany an adjustable mattress base as they're heavy and flexible enough to work with the base as intended.

The team at Mattress Outlet understands how personal the experience of shopping for a new bed can be. In response, the company is encouraging the public to stop by the Pensacola store to experience the difference for themselves. Furthermore, the company offers in-store financing as well as price matching for identical products sold by their competitors.

Since first opening its doors in August of 2006, Mattress Outlet has made it their mission to provide not only exceptional customer service but only top-quality mattresses at affordable prices.
