Pregnancy Lotion Now With Free Shipping For Amazon Prime Members Announces Bella Joi

September 26, 2015

September 26, 2015 - PRESSADVANTAGE -

Bella Joi announced earlier that Amazon Prime members ordering their pregnancy lotion are now eligible for free shipping. The company has partnered with Amazon to bring their products closer to the market. The online platform is currently one of the most trusted shopping websites today.

"We are very happy to tell everyone that all Amazon Prime members are now eligible for free shipping when buying our stretch marks lotion that is popular among pregnant women. This policy will allow you to save even more", says Bella Joi spokesperson, Holly Richards. She further added, "Aside from the Amazon Prime members, those with orders amounting to over \$35 can also enjoy free shipping. This is very ideal for those who are buying our cream to give away to their friends."

This lotion, which has been in the websites' online shelves for a while now already has a loyal following. One of the reasons for this is the countless of good reviews that it has received so far. In a review by Misty Rios, she wrote, "My back was a battleground for bad stretch marks before I found this cream. It's only been three weeks, and they're mostly gone. I can wear a swimsuit and not feel horrible about myself all day long. That's very important to me, and always has been. I was able to feel great about myself. And, now that I've taken a

chance on this cream, I'm going to be able to do exactly that. Thanks!?

Created by a naturopathic doctor, this stretch marks lotion is now manufactured in a technologically-advanced laboratory in the US. This facility follows only the strictest guidelines when it comes to quality. Each bottle contains a specially-formulated concoction of various natural ingredients that can help nourish and moisturize the skin. The mixture has three nourishing butters namely Mango, Shea and Cocoa. In addition, it also has Rose Hip Seed oil, Olive oil and Jojoba oil. It is easily absorbed by the skin and does not feel greasy when applied because it contains Capric Triglyceride.

Again, Amazon Prime members are now eligible to get free shipping. The cream for stretch marks is still available online at <http://www.amazon.com/Bella-Joi-Stretch-Mark-Cream/dp/B00MSZNAWK>.
