

Fraser Valley, BC Auto Glass Shop Thanks Community For Support

June 07, 2021

West Heights, British Columbia - June 07, 2021 - PRESSADVANTAGE -

Fraser Valley, BC - After 46 years, Abstract Auto & Window Glass vows to keep offering unbeatable service.

Since 1975, Abstract Auto & Window Glass has dutifully serviced Fraser Valley and the surrounding communities with nearly every type of glass or window-related need. The Mitchell family who continues to own and operate the business wish to thank their loyal customers for unyielding support over the decades as the business and community it serves continues to grow and flourish.

"We love being a part of the local business community, and I'm not sure there's anything I'd change about it," office manager Nicole Norden says. "We want to thank Mission and all our customers from the bottom of our hearts. You are the reason we are here and you are the reason we have the opportunity to operate a small business that provides for our families and in turn provides the locals with their glass and window needs."

Norden says the constant positive feedback she receives from customers is a great source of inspiration and passion for coming to work each day. She says it also helps encourage her and the rest of the employees to never let up in the quality of service they have continued to offer since first opening the door all those decades ago.

"This is a unique business and it's interesting to look back at all the different services and products we have added over the years as needs change and curious customers ask for help on different types of projects," Norden says. "It's a wonderful thing to be greeted with new and fascinating challenges every day."

Aside from auto and window glass installation and repair, Abstract Glass also offers commercial storefront maintenance, and tub & shower door & mirror solutions for bathroom renovations. Additionally, Abstract staff are experienced in updating existing systems into current styles and enjoy collaborating with customers on projects of all sizes.
