

Folsom Tree Service Company Releases Tree Care Tips Video

June 09, 2021

Folsom, California - June 09, 2021 - PRESSADVANTAGE -

A top tree service company in Folsom, CA, Folsom Tree Service Experts has released a video discussing tree care tips for tree owners. The video release is part of the company's long term commitment to support the Folsom tree owner community with useful information to help maintain the health of their trees. The video focus is on tree inspections and how often they are needed. As the video mentions, "These routine inspections are crucial for tree maintenance and care."

The full video can be viewed at this link: <https://www.youtube.com/watch?v=p9A-gxncjR0>

Folsom Tree Service Experts is a family-owned tree service company with over 25-years of experience caring for the natural landscape of communities in Folsom, Amador, San Joaquin, Tuolumne Counties. The company's goal is to provide exceptional tree service to all residential and commercial clients looking to maintain or improve the natural surroundings of their homes and businesses.

Folsom Tree Service Experts specialize in tree removal, however, according to the company this solution is never provided as the first option. Company representative, Enrique Gose, put it this way. "Tree removal is always our last solution. Our number one goal is to make sure that Folsom residents get to keep their trees. However, if the tree is a safety threat, we will recommend its removal. When compared to aesthetic appeal and functionality, safety always comes first."

If a property owner in Folsom suspects that a tree may have turned into a hazard, Folsom Tree Service Experts' certified arborists can respond and conduct a "Tree Risk Assessment". A Tree risk assessment (TRA) is the systematic process used to identify, analyze, and evaluate tree risk. By identifying tree risk before and after a storm event, mitigation can be conducted to reduce risk while preserving trees that have an acceptable level of risk.

Folsom Tree Service Experts is accepting new customers and is offering discounted services. Their services include tree trimming, tree removal, tree pruning, and arborist services. Those interested in a consultation can visit the company's website and complete the online request form. Interested persons can also call the company's customer service department at 916-894-8509.
