

Bees Social To Release Three New ERC20 Tokens

June 10, 2021

June 10, 2021 - PRESSADVANTAGE -

BEES Social is the world's first Decentralized Autonomous Organization (DAO) solely focused on educating and empowering people to take advantage of the emerging Crypto economy.

On June 11, 2021, BEES Social will assist three separate blockchain companies launching new cryptocurrency liquidity pools. These companies will be featured on the BEESSocialTV-WhaleTank YouTube channel outlining their concepts and supporting technology.

Ray Pepito, Marketing Director for BEES Social said, "Each of these groups have earned a collective thumbs up with the powerful BEES Social community and will be launching this week over \$100 million each in locked liquidity and all three are Fair-Launch DeFi tokens."

Fair launch tokens have become a talking point Pepito has discussed several times on his YouTube-based crypto education channel.

Pepito encourages people to understand whether or not a crypto project has tokens earmarked for particular parties, such as marketing or development teams. In the case of fair-launch tokens, they are all released to the general public at the same time.

Tim Judge, Whale Tank director, commented on his excitement for the liquidity pool launch as well. Judge said, "You can check out their YouTube interviews and join the following Zoom calls to learn more before the public launch by visiting the BEES Social YouTube Channel at 6:30 PM EDT the week of the liquidity pool launches":

" Tuesday 6-8-21: Starwire (STR) is a platform for creatives who want to get their film funded. Gain opportunities for collaboration and the chance to get a project greenlit by the community of investors. Their interview can be found at <https://mgyb.co/s/7JqB3>

? Wednesday 6-9-21: Anime Limited (YFU) is a community token for the Anime Limited and its collectible ecosystem. It's meant as the core governance mechanic for the future generation of waifu/anime/defi/crypto enthusiasts. More information can be found here: <https://mgyb.co/s/a9HzA>

? Thursday 6-10-21: IUPixel (PIXEL) believes in the continuous search to uncover and develop better ways to involve individuals to interact with art and time, and work together to add value to our everyday life through the persistence of self-fulfillment and transcendence.? More information can be found here: <https://mgyb.co/s/mMifj>

Pepito and Judge host YouTube shows Wednesdays and Fridays each week in which they provide education for those new to cryptocurrencies as well as experienced crypto enthusiasts.

Pepito commented, "These are exciting times, to say the least. There are a lot of really cool things going on and this is just the beginning of adoption."

BEES Social is a Decentralized Autonomous Organization (DAO) solely focused on educating and empowering people to take advantage of the emerging Crypto economy.

Decentralized finance has become a topic of interest as more people become familiar with cryptocurrencies. Ray Pepito continued by explaining the benefits of being a part of a community that focuses on cryptocurrency education.

According to Vince Wicker, Information Manager for BEES Social, there will be a Zoom call June 11, 2021 at 8:30 PM EDT that the BEES Social community will be on to answer questions and help people learn more about the liquidity pools.

Interested parties are encouraged to contact BEES Social through their social channels or website.
