

Former Tampa Patient Credits WhiteSands Alcohol and Drug Rehab with Saving His Life

June 11, 2021

TAMPA, FL - June 11, 2021 -
Tampa, FL - A former patient of WhiteSands Alcohol and Drug Rehab in Tampa by the name of Joey recently left the treatment center a five star review on Google. In it, he thanked the compassionate staff for helping him get back on the right track. Joey said ?Staff was great, they show nothing but compassion for the residents? which is something WhiteSands prides themselves on.

Seeking help from professionals was Joey?s last option in attempting to overcome his addiction. Fortunately, he made the decision to reach out to WhiteSands Alcohol and Drug Rehab. ?So glad I came here, It was a life-saving experience,? he said.

Compassionate, attentive staff members help set WhiteSands apart from other facilities.

The success of any addiction recovery program begins with the staff. Patients are known to be more receptive to treatment when they are comfortable and feel well cared for. At WhiteSands, the staff is

dedicated to showing compassion, respect towards and understanding towards patients, allowing clients to truly indulge in treatment. The staff genuinely cares about each and every patient and their needs and makes a point to follow patients throughout their recovery journeys.

WhiteSands Alcohol and Drug Rehab prides themselves on their ability to connect with patients on such a deep level and form lifelong relationships. WhiteSands believes in treating patients as individuals and offering personalized treatment plans to ensure that all aspects of the patient?s problem are resolved

Many facilities use a one-size-fits-all approach when treating patients, but WhiteSands does things differently. Patients are treated individually based on their personal needs and medical requirements. Joey successfully completed his treatment and left saying, ?This place got me back on the right track. Highly recommended.?

Approaching patients with an individualized treatment plan allows them to heal in all aspects, not just addressing the disease of addiction. Oftentimes underlying factors are revealed through treatment that have either led to or co-occurred with the addiction at hand. By conducting in-depth mental health evaluations, patients can ensure that they are on the correct track to recovery.

Along with the quality of care shown by staff members, amenities are also of great importance to make sure patients feel comfortable and ready to embark on their journey to recovery. WhiteSands Alcohol and Drug Rehab offers a full sized gym with personal trainers on-site, a swimming pool, a basketball court, and many other amenities that provide patients with healthy and active ways to spend their free time after their sessions.

For anyone struggling with substance abuse or addiction, do not hesitate to reach out to WhiteSands. Highly trained medical professionals are available 24/7 to answer questions and concerns. WhiteSands can be reached at (877) 221-4535. Contact WhiteSands today to begin the journey to recovery.
