

EPS Landscaping & Tree is Determined to Keep Their Pembroke Pines Lawn Service Offerings at a High Level

June 21, 2021

Pembroke Pines, Florida - June 21, 2021 - PRESSADVANTAGE -

EPS Landscaping & Tree Service LLC is a company that has seen its services grow steadily over the years in several Broward County locations in Florida. Among these is the City of Pembroke Pines which is located some 22 miles north of Miami. Here its customers have been especially high on the lawn service in Pembroke Pines that this company offers. Much of this has to do with the experience that each of EPS Landscaping & Tree's lawn care crews bring to their work and the overall dedication to customer service that those at the company often demonstrate.

Greg O'Connell, who co-owns the company along with his wife, says, "We are very fortunate to have lawn care crews that are led by some of the most knowledgeable and detail-oriented lawn care professionals in the area. I also make it a point to provide them with the best lawn care equipment that is available. This tends to create finished lawn care tasks that always make a statement with the way that they look. It's something that we here at our landscaping and tree company take much pride in. My wife and I pledge to do whatever it takes to continue providing top-notch lawn care services to our customers in Pembroke Pines and elsewhere in the Broward County area."

The company co-owner went on to say that there are 4 ways that their customers and others in the Pembroke Pines, FL area can avail of their lawn care services. This is by selecting from the individual lawn mowing, lawn maintenance, and lawn insect control services that they offer or by selecting a package that includes bundled lawn care services from among these. He added that their bundled lawn care services are something that is becoming very popular with their customers because they offer them some cost savings over purchasing their lawn care services individually.

O'Connell says that their lawn mowing services go way beyond just mowing too as they encompass all areas of general lawn care. Included in this are both their residential and commercial grass-cutting offerings. Their professional edging and trimming services also fall under this heading of lawn care services. He added that there is no such thing as a lawn mowing project that is too big, too small, or too difficult for them to take on for a customer. The company co-owner also went on to mention that if people in Pembroke Pines want to keep their lawns looking great and healthy, they should also take advantage of their many lawn maintenance services. These include such important lawn tasks as fertilization, seeding, fungus treatment, and weed control. Their mosquito, tick, and other lawn insect control services have also taken on more importance as the number of insects that populate the area each year keeps rising. He added that they are always willing to meet with a home or business owner and take a look at their landscape and answer any questions that they have regarding how they can better maintain and improve the looks of their lawns. EPS Landscaping & Tree's representative will also happily provide that person with an estimate for the lawn care services that the customer is interested in having the company perform for them.

Those that have used this landscaping company's lawn care services have been left impressed by the job that was done for them. J. C. stated in his 5-star Google review, "Highly recommend! Great folks to deal with. Very professional, good listeners, punctual, and fast. They did highly detailed and professional work that was also done for a great price! I Will be using them at all of my other properties and for my other family members' properties as well."

O'Connell also mentioned that they have very knowledgeable and highly skilled techs that lead their tree and irrigation service crews. He also wanted to point out that all of their lawn care, tree, and irrigation services are 100% guaranteed. Those that would like more information on the lawn care services that EPS Landscaping & Tree Service offers to those in Pembroke Pines and the surrounding Florida areas can contact them by phone, email, or by filling out and sending in the form that's found on their website's homepage. Customers can also refer to their website for other landscaping news and announcements from the company.
