

New SafeAir Certified Mold Inspection Inc. Video Post: "Can I Remove A Mold Problem Myself?"

June 17, 2021

June 17, 2021 -

SafeAir Certified Mold Inspection Inc. is one of the highest-rated companies that provide mold testing in Atlanta, GA. Owned and operated by Jeremy Shelton, SafeAir has quickly become one of Atlanta?s most trusted teams of indoor air quality experts. For more than a decade, Jeremy and his staff have provided metro-Atlanta with mold testing and indoor air quality testing services. The company has released its latest video blog in a series of Frequently Asked Questions, in which Jeremy Shelton answers customer-submitted questions. For example, in the newest blog post, Jeremy answers the question, ?Can I Remove A Mold Problem Myself??. The video and its related blog post is located on the company?s website under the blog section.

The topic hits close for Shelton, who entered the indoor air quality industry only after a severe health battle with a mold infestation in his own home. Shelton had this to say, ?For more than a year, I was deathly ill and trying to figure out what was wrong, and only after hundreds of hours of research and trips to countless specialists did I even consider that my own home was quite literally trying to kill me. It?s because of this experience that I?ve dedicated my entire professional career to helping others with their mold problems.?

Homeowners located within Atlanta, Sandy Springs, Roswell, Marietta, and other surrounding Metro Atlanta areas suffering from toxic mold exposure are invited to speak with the SafeAir Mold Testing team to schedule a free consultation.
