

## **Flooring Contractors Dry Star Restoration Is Offering A Wide Range Of Services In Phoenix**

*June 21, 2021*

Mesa, Arizona - June 21, 2021 - PRESSADVANTAGE -

Dry Star Restoration is offering services such as water damage restoration, fire damage restoration, mold remediation, asbestos abatement, storm repair, sewage cleanup, cleaning, flooring, and remodeling to homeowners and businesses in Arizona.

As one of the best flooring contractors in Phoenix, the company has the experience of maintaining and installing all kinds of flooring such as hardwood, tile, stone, luxury vinyl, and carpeting. The company claims to use only the newest technology and industry-standard practices to install flooring that can stand the test of time and look beautiful at the same time. The company claims that its in-depth knowledge manifests in the precision and the care that it puts into every job site.

The company's experts will help homeowners pick the right flooring for every room of the house depending on its purpose. The company recommends tile flooring in kitchens and bathrooms as a way to combat water damage. It also recommends stone variations including travertine, limestone, marble, granite, and slate in indoor rooms such as the dining area, living room, and hallways due to their resistance to stains. The company recommends vinyl flooring and carpeting for intimate areas of the home such as offices and

bedrooms.

The company also provides fire damage repairs in Phoenix through its special 6 step process that allows for the speedy recovery of the damaged area. The first step is to ensure the property is safe and to evaluate damage from smoke exposure and the corrosive potential of residue. The next step is to isolate the affected area and to prevent migration to other affected areas. Then the company implements solutions to arrest possible corrosive reactions. Next, they perform a systematic and thorough decontamination process on all equipment and structures harboring residues. In the next step of restoration, they will reinstall equipment and/or components to the property. Finally, the property will be reconditioned by conducting extensive diagnostic testing and controlled "burn-ins" of equipment as it becomes available after the restoration processing.

The company recommends customers avail of its services in the first 24 to 48 hours after the fire damage as they are the "golden hours" of recovery. This is because the acidic soot and smoke damage that is often produced when fires are extinguished accelerate the deterioration and corrosion of building components and vital assets. The company will also make sure to neutralize and deodorize the toxic smoke odor left behind.

The company also offers its expertise as remodeling contractors to homeowners or businesses that are looking for an upgrade. The company is licensed, bonded, and fully insured to perform all remodeling jobs. The company is an expert at both interior and exterior remodeling. The company's services can be used by customers looking to get more functionality or improve the aesthetics of the space that they currently have. The company's services can even prove useful to increase a property's worth and to get higher returns on investment once the property is put up for sale in the market. The company claims it can fine-tune a living space for comfort while tweaking it to show off the personality of those that live in it. The company also helps with a range of outdoor remodeling projects such as pergolas, gazebos, and a variety of patio awnings.

The company is rated at an A+ from the Better Business Bureau. All of the company's technicians are IICRC certified, experienced, and maintain a professional attitude on every job site that they visit. The company was a 2018 Angie's List Super Service Award Winner. They offer free estimates and also bill directly to insurance.

The company's service areas include many regions in Arizona such as Apache Junction, Chandler, Fountain Hills, Gilbert, Glendale, Gold Canyon, Higley, Mesa, Paradise Valley, Peoria, Phoenix, Queen Creek, Rio Verde, San Tan Valley, Scottsdale, Tempe, and Tortilla Flat.

The company can be contacted at the phone number (480) 664-4264. It accepts calls 24/7 and will respond to emergencies in 90 minutes or less.
