

NYC Botox Provider Rejuvenation Clinic Announces Huge Price Cut On Botox Treatments

September 28, 2015

September 28, 2015 - PRESSADVANTAGE -

Rejuvenation Clinic of Manhattan, NY has recently announced a huge price cut on their Botox treatments. The company now offers 20 units of Botox for \$149. Roman Wexler, clinical director, says, "We created this pricing deal because we found there are hundreds of people that are switching from high priced Upper East Side surgeons who are looking for a more affordable solution for their Botox treatments. We save on huge expensive office space and therefore can pass along the savings to our customers."

Botox injections usually range in the \$12 to \$15 per unit price range. Rejuvenation Clinic's new pricing on Botox treatment brings the cost of a unit down to just below \$7.50 a unit. This basically cuts the standard pricing for Botox in half.

"On our website at <http://RejuvenationNY.com>, customers can buy the new pricing deal securely on the website. They can then schedule a same day appointment or schedule an appointment at a later date. The website is also mobile optimized so customers can purchase directly from their mobile device", states Wexler. "We are the big Botox secret in NYC. We can see you the same day and there is no wait. I call it Lunch Time Botox. Come in and be back to work by the end of lunch."

The company also provides other facial fillers such as Juvederm and Dysport. And according to Wexler, those other products have similar affordable pricing offers.

Consumers looking for Botox in NYC and contact Rejuvenation Clinic by visiting their website at Rejuvenationny.com.
