WasteAway Dumpster Service Offers Dumpster Rental Buffalo in NY

June 24, 2021

June 24, 2021 - PRESSADVANTAGE -

WasteAway Dumpster Service is pleased to announce that they are offering dumpster rental service in Buffalo, NY, and neighboring areas. Renting a dumpster in Buffalo for a junk removal or waste removal project is considered to be the best way to remove unwanted waste or junk in significant quantities from any project site. Any business owner, contractor, or homeowner can get rid of the waste produced in an affordable, convenient, and appropriate manner. More about this can be gleaned from <https://www.wasteawaywny.com/dumpster-rental-buffalo-ny/>.

They are a locally owned, full-service waste disposal company that offers bins or dumpsters for rent for residential and commercial projects. They have several years of experience and many satisfied customers. Their service area is all over the Buffalo metropolitan area including North Tonawanda, Clarence, Lockport, Amherst, Tonawanda, Pendleton, Niagara Falls, Wheatfield, and Williamsville. They can also serve other places that are not in these areas, although some extra fees may be required depending on how far is the location from the service area.

Nicholas Stanton, a representative for WasteAway Dumpster Service, says, "We have various sizes of roll off dumpsters and bins to ensure that all of our customers will likely find the appropriate dumpster for their project. We have five years of experience with regards to dumpsters and waste disposal and we have accumulated a lot of satisfied customers who can attest to the quality of our service."

They have an 8 cubic yard concrete bin. And available are two sizes of roll off dumpsters: a 15 yard dumpster and a 20 yard dumpster. The 15 yard dumpster has the dimensions 14 feet in length, 4 feet in height, and 8 feet in width. It is estimated that it can contain up to six times that of a pickup truck load. The 20 yard dumpster is 14 feet in length, 6 feet in height, and 8 feet in width. It can contain up to eight times that of a pickup truck load.

WasteAway Dumpster Service also offers junk removal service. This can be a single item pickup; junk removal or waste disposal service; and curbside pickup. The single item pickup is for people who just need to get rid of a single item, such as a refrigerator, mattress, spa, couch, or appliance. The company will send some of their personnel to pick up the item and bring it to where it can be properly disposed of.

In their junk removal or waste disposal service, they will bring their large trucks to the project site. The company's waste management professionals will break down and take away all the waste and junk and bring them to where they can be properly disposed of.

And for the curbside pickup service, they will bring an 11 yard dumpster to the site and allow the customer 25 minutes to load the junk or waste into the dumpster. After 25 minutes, they will load the dumpster back on the truck and then haul the junk away to a dumpsite or waste recycling plant.

They also offer concrete removal services. The price will depend on the thickness and quantity of the concrete. And finally, the company offers Bobcat services where they will go to the client's location and take all of the junk, construction materials, and small structures as required and then bring them to the place where they can be properly disposed of.

Customers have been providing highly positive feedback. For instance, Thomas P. said, "Our business is very happy with the service we received from WasteAway Dumpster Service. They are always quick to respond when we call to empty our containers. Nice to work with a reliable company."

Those who would like to know more about renting a roll off dumpster for their project can visit the WasteAway Dumpster Service website, or contact them through the telephone or via email. They are open from 7:00 am

to 5:00 pm, from Monday to Friday; and from 8:00 am to 12:00 pm on Saturdays.
