Company representative, Jayda Veronica, had this to say about the challenge of finding quality tree care in West Palm Beach. "Providing tree services can be hazardous business. Especially when dealing with large trees, homeowners should want to stay on the ground where its safe and leave the hard work to professionals. Many tree service companies do not have high standards and train their people well enough to avoid accidents as we do here at West Palm Beach Tree Services. A client could put their property at risk and their family in danger if they hire the wrong company for jobs such as tree removal. That is why we make it easy and less intimidating to get an estimate from us for tree services."

They came out to give a very reasonable quote, followed up the day before our appointment and even cut down and hauled away a dead tree on the property for no extra charge. I asked them to keep the larger pieces of oak they cut for firewood, and they even cut it up and stacked it with our other wood. Highly recommend their service." John rated the company with five stars. It should be noted that five stars is the highest rating that a company can receive on their Google Business listing.
