Destination Paradise Shares Caribbean 4 K Relaxation Film

July 02, 2021

July 02, 2021 -
Destination Paradise, a YouTube Channel that posts high quality inspirational and scenic landscape videos every week, is proud to share their new video, Caribbean 4K Relaxation Film, which has around 40 minutes worth of beautiful, high resolution drone footage of various locales around the Caribbean. Their videos are always accompanied by relaxing ambient music.

The Caribbean is a region of the Americas that comprises the Caribbean Sea, its surrounding coasts and islands. The region lies southeast of the Gulf of Mexico and of the North American mainland, east of Central America and north of South America. With more than 700 islands, islets, reefs and cays, it is one of the most culturally diverse regions in the world.

Within the Caribbean region, three island arcs delineate the eastern and northern edges of the Caribbean Sea: The Greater Antilles to the north and the Lesser Antilles and Leeward Antilles to the south and east. Put together with the nearby Lucayan Archipelago, these island arcs make up the West Indies. Though they are not within the Caribbean sea or even on its border, both the Bahamas and the Turks and Caicos Islands are more often than not considered part of the Caribbean. In fact, the Bahamas is a full member state of the Caribbean Community, and the Turks and Caicos Islands are an associate member. The Caribbean region even encompasses some parts of mainland South and Central America because of their political and cultural ties with the region. This includes Belize, the Caribbean region of Colombia, the Venezuelan Caribbean, Quintana Roo in Mexico (consisting of Cozumel and the Caribbean coast of the Yucatán Peninsula) and The Guianas (Guyana, Suriname, French Guiana, Guayana Region in Venezuela and Amapá in Brazil).

Considering the wide range of land and sea that is considered part of the Caribbean region, it is no surprise that there are many beautiful sights to be experienced within the Caribbean. It is the stunning beauty of the Caribbean that makes it one of the most popular tourist destinations in the world. However, visiting the Caribbean is not an option for everyone and certainly not viable during the current global situation, which is

why Destination Paradise?s stunning, high quality drone footage comes in. The YouTube channel?s dedication to getting 4K drone footage of the sights of amazing places around the world and presenting them with calming ambient music means that anyone can enjoy the sights of the Caribbean ? such as the Tobago Island, beautiful reefs, bright and blue waters and more ? from the comfort of their own homes.

Greg Webster, a representative for Destination Paradise, says, ?When we are considering a new video for our channel, our main goal is to ensure that we can capture the spirit of the location or the country that we are shooting in its most pure form. On top of our crystal clear, 4K drone footage, that?s what makes our videos stand out. It?s no different with our Caribbean 4K Relaxation Film, which takes amazing footage of many places around the Caribbean and presents it in a format that everyone can participate in.?

Destination Paradise?s Caribbean 4K Relaxation Film has great footage of many places, but one that stands out is Tobago Island, one half of the famous Republic of Trinidad and Tobago. A famously multiracial and multiethnic island, Tobago is well known for its mix of African and Indian cultures ? the island hosts large and famous celebrations, such as Carnival, Diwali and Hosay. Tobago is also the birthplace of steelpan, the limbo and music styles such as calypso, soca, rapso, parang, chutney and chutney soca.

The video also has incredible footage of the Plage des Salines, one of the most popular beaches on the Caribbean, best known for its soft white sands, calm, sheltered and brilliantly turquoise waters and the soothing shades of palm trees. While Martinique ? the rugged Caribbean island home to the Plage des Salines has many other beautiful beaches ? it is generally accepted that this is easily the best of them all.

Those who want to learn more about Destination Paradise or watch the beautiful nature relaxation videos they have that cover many different countries can visit their YouTube channel to begin browsing at leisure. Destination Paradise encourages interested parties to get in touch with Greg Webster directly via email or phone for business inquiries or any other concerns.
