4 K Relaxation Film Showcases Beauty Of Oregon

July 02, 2021

July 02, 2021 -
Cornelia, GA based Destination Paradise, a YouTube channel that shares 4K videos of various locations around the world, recently released a film showing off the natural beauty of Oregon. ?Oregon 4K? explores the many activities and locations in Florida that one can visit. The Northwestern state is a popular destination for tourists, with countless mountains, forests, waterfalls, rivers, beaches and lakes. Some of the more popular places include Crater Lake National Park, Multnomah Falls, the Painted Hills, the Deschutes River and the Oregon Caves. Portland, the state capital, is home to a number of museums and zoos which could potentially keep explorers busy for hours.

?Discover Oregon,? says the video?s description. ?Founded in 1859, Oregon is known for its wild west past, its quirky present-day traditions and its many natural marvels. Oregon is truly a great state with a very rich interesting history. Its incredible weather and landscape offer a high quality of life, and if you choose the right city, you'll have plenty of jobs to choose from.?

One of the locations shown in the nearly hour-long video is Cannon Beach. Based in Clatsop County, Oregon, the city has a population of over nearly 1,700 people. This number swells every year thanks to the thousands of tourists that flock to the city. Cannon Beach is famous for Haystack Rock, a 235 foot sea stack just off the Pacific Coast. The city was listed in the 2013 issue of National Geographic as one of the 100 most beautiful places in the world. Every year, tourists visit the city to take in the views and enjoy the many activities they can take part in, including the annual sand-castle build contest, the annual Fourth of July parade and much more. Visitors to Cannon Beach have had nothing but good things to say about the experience, and it is generally agreed that no trip to Oregon is complete without a trip to Cannon Beach.

Another location showcased in the 4K video is Hells Canyon, a 10 mile wide canyon along the eastern Oregon border. The canyon is the deepest gorge in North America at nearly 8,000 feet, which is even deeper than the Grand Canyon. There are a number of fun activities in and around the canyon, including fishing, jet boat tours, hunting, hiking, camping and whitewater sports like rafting and kayaking. A number of people visit the canyon every year to take a look at the deepest canyon in North America and take part in the adventures it offers.

The video features a number of other beautiful locations from all over Oregon, including Astoria, Willamette National Forest, Mount Hood, Columbia River Gorge and much more. The expertly filmed shots of Oregon?s most beautiful places are all accompanied by relaxing, peaceful music that one could easily sit down and relax to. Destination Paradise has several other videos that showcase the most scenic places in the world, set to equally beautiful music. The rapidly growing channel has multiple videos with thousands of views.

Many have left highly positive comments about the 4K quality beach drone videos found all over Destination Paradise?s channel. Viewers often go to the trouble of leaving comments just to praise the camera work or express how the content makes them feel.

?We are happy to be growing at such a rapid pace,? says the team behind the YouTube channel. ?Every day, more people find our channel, and the Destination Paradise family grows. Whether you are preparing to travel somewhere and interested in seeing what the place might have to offer or simply looking for a relaxing video to put on while you rest after a long day, Destination Paradise has you covered, and our team is constantly working to put out more, better content. There is a lot to see out there, and we have made it our mission to capture as much of it as possible and share it with the world.?

Visit Destination Paradise on YouTube for more quality footage and music from all over the world. They are always looking to explore and showcase new locations.
