

# Car Detailing Company In Austin Expands With Second Service Vehicle

*July 02, 2021*

July 02, 2021 - PRESSADVANTAGE -

The Daily Detail Car Detailing in Austin, TX, is pleased to announce that they are expanding with their second car detailing service vehicle. This was motivated by the fact that their mobile detailing business has been good and that the reviews they have been receiving have been great. They are ready to serve more clients by offering mobile detailing, fabric and leather treatment, paint and headlight restoration, professional interior cleaning and odor neutralization, clay bar and waxing, paint sealants, and more.

They offer both exterior and interior packages. The exterior packages include basic wash; decontamination wash; wash + protect (ceramic or graphene coating to be applied to perfect paint); paint polishing; headlight restoration; decal removal. The interior packages include basic, advanced, and OCD.

They use a variety of steps for auto detailing, such as cleaning of exterior and interior windows and mirrors; vacuuming of the interior including floor mats and trunk; hand washing and drying using foam cannon and two bucket method; cleaning and dressing of tires with non-sling dressing; cleaning and conditioning of exterior plastics; flossing of wheels; full paintwork decontamination; drying of all door and trunk jambs; application of carnauba wax; steam cleaning of all carpets; cleaning and detailing of roof liner; cleaning of seats, cup holders, and plastic trim; water-based matte dressing for all plastics; application of polymer sealant; cleaning and conditioning of all leather; full paintwork correction; and cleaning and conditioning of rubber trim and seals.

Recently, they had expanded their service area to include North Austin. This is an expansive area of residential neighborhoods and they decided to expand there because they know that many people don't have the time to go to a shop for detailing.

Dev Parker, the founder of The Daily Detail, says, "We would like to reach out to vehicle owners in the area who may be in search of reliable, high-quality detailing service, delivered to where it is most convenient for

you. We place a great deal of emphasis on the customer and their needs. We focus on taking the time to hear about our customers' prioritized details, in addition to keeping our rates competitive and having flexible hours. We are always trying to exceed Daily Detail expectations to get that customer satisfaction, and we appreciate all the feedback we get.?

In addition to the interior and exterior packages, they also offer ceramic coating auto detailing packages. It should be noted that while waxes and sealants are good for detailing, they need to be applied more frequently to offer optimum protection. This is where ceramic coatings can be helpful. Ceramic coatings can offer improved durability of the protective coating, allowing it to last for up to 10 years. This protection is usually provided in the form of permanent or semi-permanent coatings that can serve as the best barrier between the car paint and the harsh elements that can negatively affect the car's exterior. The ceramic coatings can function not just as a protective barrier, but also as a way to provide depth and gloss to the finish, with the result that cleaning the car will be a lot easier because dirt and other contaminants will usually not stick to the ceramic coating.

The Daily Detail also offers individualized monthly TLC detailing packages. The price for these packages range from more than \$200 to more than \$600. They have a 100 percent satisfaction policy, which is why they will only charge the customer after they have completed the service. A dedicated support team is always prepared to render assistance in the event that the customer is not satisfied with the work so that they can provide the necessary adjustments.

Customers, meanwhile, have provided highly positive feedback. For example, Jessica S. gave them five stars and said, "The inside of my car needed some long-overdue TLC. Devin did such a wonderful job, especially with all the pet hair that was covering my car floor.?"

People who would like to learn more about the mobile car detailing services provided by The Daily Detail Car Detailing, in or near Austin, can visit their website, or contact them through the phone or through email.
