

Silicone Oven Mitts Receives 10/10 Review

July 06, 2021

July 06, 2021 - PRESSADVANTAGE -

FruX Home and Yard, based in Las Vegas, Nevada, is pleased to acknowledge receiving a 10/10 oven mitts review from a customer on Amazon reviews. The company specializes in house décor, lighting and kitchen/home accessories.

Christina Smith rates the oven mitts 5 out of 5 Stars and states that she would ?10/10 recommend! A kitchen must!? In her Amazon product review, she goes on to say that ?I love these mitts so much! We are a large family and we cook a lot! So having proper tools in the kitchen is a must. This includes oven mitts/pot holders. I cannot tell you how many times I have burned my hands pulling a pan of cookies out the oven, but not with these! I love how well the silicone part grips the pan, is extremely heat resistant, and I can rinse off if they get dirty. The fabric is thick and gives the mitt an overall secure feel to it. I've already purchased two sets of these. I am so happy with them.?

This review highlights the benefits of the purchased oven mitts while also emphasizing the quality of the product. The silicone oven mitts are heat safe up to 500°F and offer maximum hand, wrist and forearm protection. The flame retardant silicone does not catch fire or melt when used near a flame either. A user will no longer have to be as concerned about getting burned accidentally while working over hot flames, ovens, stoves or grills. The oven mitts have a premium inner cotton lining that gives the user an extra layer of

protection and comfort. The Silicone Mitts oven gloves are 14.75 inches long and comfortably fit a forearm of 10 inches in circumference. The added length of the kitchen mitts will keep the user protected from fingertips to forearms so they can grip pots, pans and cookware without worrying about scalds or burns.

This pair of heat resistant oven mitts have a completely waterproof silicone outer shell. It effectively prevents steam scalds while cooking on the stovetop or draining boiled pasta. A user can safely and easily retrieve food like boiled potatoes from a boiling pot of water. The gloves also have a Non-Slip Grip. The textured non-skid pattern on both sides of the oven mitt helps the user hold on without hindering their natural grip or sacrificing dexterity. These hot pads and oven mitts are flexible, breathable and comfortable, offering the best control and stability holding hot, slick or heavy items. The gloves are easy to clean and store. They are made from BPA-free, food-grade silicone, and the company adds that their black oven mitts are stain-resistant and easy to clean with warm water and a little soap. For big stains, these heavy-duty oven mitts can also be machine washed on a gentle cycle and will not tear or fray over time. The attached loops on the side of the mitts means that they can be easily hung on cabinets and hooks, so they can be kept within reach.

Frux Home and Yard considers customer satisfaction as their number one priority in the creation of their products. Paying attention to customer feedback is paramount for the company, and they want customers to have a voice in the products the company creates. Having a closer interaction with their valued customers allows the company to follow through on their mission of producing quality products and being able to stand firmly behind them. At present, the team is busy working hard, enthusiastically creating a new line of products for homes and yards that will satisfy a wide range of décor needs. The products the company has will accommodate a wide range of lighting possibilities and bring their customers' decorating dreams to life. The company is proud to have been part of many special events in their customers' lives, from weddings, to banquets, garden parties and more. The Frux flameless lights are especially delighted to provide their customers with a child and pet safe option for holiday decorating and year-round accent lighting in many homes, and they hope to continue adding a special touch to many more homes.

If one wishes to learn more about the available products or has any concerns or questions, they may visit the official Frux Home and Yard website (and also check out the FAQ page). The company also provides customer support via phone and email.
