Bin Pro Container Rentals Launches New Website

July 12, 2021

July 12, 2021 -
Bin Pro Container Rentals, a dumpster rental company in New Hampshire, has launched a new website. The website presents a concise overview of its services along with a contact form that allows customers to easily book a dumpster online.

The company offers three different dumpster sizes for rentals. The 15-yard dumpster and 15-yard dump trailers are 14 feet long, 8 feet wide, and 4.3 feet high. They cost $499 to rent for any duration from one day to four days and the base price includes 1.5 tons of disposable material.

The 15-yard dumpster is commonly used for garage cleanouts, bathroom remodeling, small furniture removal, and other small or medium-sized jobs. It is capable of holding 5 tons of material. The 15-yard dump trailer is appropriate for hauling heavy material. The trailer can be placed on the road without a special permit and is easier on driveways.

The 20-yard dumpster is 16 feet long, 8 feet wide, and 5 feet high. It costs $599 to rent for any duration from one day to four days and the base price includes 2 tons of disposable material. The 20-yard dumpster is

adequate for attic cleanouts, carpet removal, and landscaping projects. It is capable of holding up to 5 tons of material.

The company adds a nominal charge for every additional day or tonnage beyond the time and weight that is included in the base price of each of the aforementioned dumpsters. The company adds $10 for every additional day that they are rented out. It also adds $180 for every additional ton of material that is to be disposed of.

The website offers a simple process for booking dumpsters. The process begins with a form on the website asking whether the customer is a residential homeowner or a commercial contractor. Once the customer makes the selection, the form shows a brief summary of what they are going to be paying for. The customer then proceeds to select a dumpster drop-off date. Only weekdays are selectable as the business is closed on the weekends. The website then shows the customer their entire order and asks them to submit their billing and contact information. Once the customer verifies all the information is correct, they can head over to billing to make the payment.

A spokesperson for the company talks about its services by saying, ?We are providing a critical service to the community. Homeowners who like to tinker and work on their own projects and commercial contractors who are clearing the work site now have a reliable dumpster rental service they can call to take care of their junk disposal problem. We are bringing the ease of use that everyone is accustomed to in the modern world to the dumpster rental industry. It removes a lot of hassles and makes the entire process of renting out a dumpster as straightforward as it possibly can be. All you have to do is to select the dumpster or dump trailer that you want and make a payment online. Our team will get in touch with you and we will walk you through the rest of the process. If you get stuck on any problem or have questions, you can always call us and our talented and knowledgeable sales staff will help you with whatever you are unsure about. Call us today or get in touch with us online and you will find out why we are the best option for dumpster rental in New Hampshire.?
