

Avondale AZ Trash Hauling Company Recognizes That Some Customers Need Smaller Size Dumpster Rental Options

July 09, 2021

July 09, 2021 - PRESSADVANTAGE -

Avondale, Arizona area dumpster rental company, Drop N Bins, has long acknowledged the fact that trash, rubbish, and debris removal is not a one-size-fits-all task. That's why they are pleased to be able to offer their customers three different sized dumpster choices. This includes smaller size dumpster rental options. Something that not every trash and junk removal hauler in their area offers.

The company owner, Brad Thomason, says, "We have always claimed to be a dumpster rental business that has trash and junk removal solutions for everyone. That includes those that have smaller size cleanup projects that they need to get done. That's why we offer one of the smallest dumpster sizes that's available in our area. We will continue to do what it takes to offer as many dumpster rental solutions as possible for our residential and commercial customers."

Thomason went on to say that their smallest-sized dumpster measures 10' Long x 7' Wide x 4' high. That's equivalent to about 4 pickup trucks full (10-yards) of trash, junk, and debris that can be placed in it. So even that it's smaller than their other dumpster choices, it still has a fair amount of space for people to put trash and items in. He says that those that rent this size dumpster will also be allowed to place up to 1-ton of trash or disposable material in it. This includes e-waste, yard debris, construction trash, regular household rubbish, and other non-hazardous waste. The company owner stated that many customers also put mattresses, TVs, appliances, and even old hot tubs in these. People also like them for doing routine attic, garage, basement, business, and foreclosure decluttering.

The company owner also added that their 10' Long x 7' Wide x 4' high size dumpsters also come with a smaller size rental price. They are happy to provide a dumpster size that allows customers not to pay for trash and rubbish disposal space that they don't need. Other advantages that a compact dumpster size

offers are that they can be placed into a smaller area or in places where there is a tight fit. He mentioned that their professional drivers are very good at dropping off their dumpsters as close as possible to where the customer wants to load them. That way they spend more time loading than they do walking back and forth to where their dumpster sits. All of this had made their smallest size dumpster one of their most popular rental choices. Thomason added that like all of their dumpster choices, their smallest-sized dumpsters can be conveniently reserved simply by going to the link on their website.

Thomason acknowledged that for large and medium-size trash and junk removal projects they have dumpster options for those too. This includes their 1.5-ton dumpster option that measures 13' Long x 8' Wide x 5' High. That's enough to hold about 6 pickup beds full (15 yards) of garbage, junk, and debris. It's a perfect size for those that are doing estate cleanups, getting ready to downsize homes, and for many other mid-size commercial and residential trash removal projects. For bigger junk hauling projects, the company owner recommends their 20-yard 13' Long X 8' Wide x 6' High dumpsters. They will hold about 8 pickup truck beds full of haulable junk and material. These are very popular for roofing companies that are doing complete reroofing projects and for construction cleanups. Thomason also pointed out that all of their dumpsters come with a flat rate charge and can be kept by the customer for 4-days. Extra days and extra weight are allowed but there is a small extra charge for these.

For those in the Avondale area that would like more information on the dumpster rental services that Drop N Bins offers, Thomason welcomes them to give him a call, send him an email, or refer to their website at <https://www.dropnbins.com/dumpster-rental-avondale-az/> to get that information. He also reminded that their service area covers Goodyear, Surprise, Sun City, Avondale, Glendale, Litchfield Park, and many other Phoenix-area communities.
