

olive® Drives Responsible Investment Through QBE's Premiums4Good

July 09, 2021

Walnut Creek, California - July 09, 2021 - PRESSADVANTAGE -

olive®, the online leader for mechanical breakdown coverage, along with their customers, have invested insurance premiums into sustainable and socially responsible projects through their partners QBE.

Premiums4Good is an innovative initiative that sees QBE invest everyday premiums to make an extraordinary difference to communities across the globe. Through Premiums4Good, QBE invests customers' premiums into investments that have additional social or environmental benefits at no extra cost to the customer.

These investments include social impact bonds, social bonds, green bonds and infrastructure, supporting a range of projects and programs that seek to create change. From renewable energy initiatives and sustainable infrastructure, to social services and programs to support vulnerable people and communities.

When customers purchase a plan with olive.com a portion of their plan is invested in Premiums4Good. Premiums4Good will have 25 percent of their premium invested in projects that help the environment or deliver direct, sustainable benefits to communities, such as those aimed at reducing homelessness.

QBE provides the insurance and claims services for each olive plan, which offers customers vehicle mechanical breakdown coverage with no waiting periods, fixed monthly pricing and a 100% online quote and fulfilment platform.

Paul Sherman, Chief Marketing Officer, olive: "olive is proud to be a part of the Premiums4Good program. Every year, a portion of our profits go directly to accomplishing the UN's 17 Sustainable Development Goals, which aim to end poverty, hunger, and provide everyone with access to clean water. We love that our customers can feel good knowing that their plan further invests in worthy causes, at no cost to them."

Shaqeel Hussain, Head of Automotive Protection, QBE: "Premiums4Good is a unique and innovative offering; we're the first insurer that allows you to choose for your premiums to be invested in projects that

benefit communities and the environment. By offering Premiums4Good through olive, we're pleased to be able to reach even more customers that can take part in this great initiative."

QBE currently has USD 904 million invested across 66 investments including social impact bonds, social bonds, green bonds and infrastructure - supporting a range of initiatives from renewable energy and sustainable infrastructure, to social services and programs to support vulnerable people and communities.

In North America, Premiums4Good investments have benefitted 22 securities as of 2020, including projects such as The Ford Foundation Social Bond.
