Cleveland Waste Management Service Junk Disappear Receives Glowing Review

July 14, 2021

Cleveland, Ohio - July 14, 2021 - PRESSADVANTAGE -

Junk Disappear, a waste management service in Cleveland, has received a glowing review from one of its customers.

The review by Cheryl Winter on the company's Google My Business page says, "I've used Junk Disappear a couple of times now. They are extremely thorough, quick, and efficient and the guys are very professional and courteous. I would highly recommend!!!"

A spokesperson for the company reacted to the review by saying, "We are delighted with the review from Cheryl and we would like to thank her for taking the time to let us know her thoughts on the service we provided. It is always exciting to receive feedback for the hard work that we put into this business day in and day out. It gives us the motivation to go out there and perform to the best of our abilities every single day. We take the criticisms in stride too and use them as an opportunity to improve our services. So far, we have maintained a perfect rating of 5 out of 5 from almost 25 reviews on our Google My Business page. We have

had to maintain an exceptional level of service to maintain that record. Our dedication to the customer and their best interests is reflected in the reviews that they leave for us. If you are looking for a professional dumpster rental service in Cleveland, Ohio, give us a call today and you will find out why we are the best that the city has to offer.?

Dumpster rentals are recommended for home renovation or construction projects because they provide the customer with an easy way to keep the job location trash-free. Once the job is complete or the dumpster is full, the customer can call the dumpster rental company to haul it away. This gives them the freedom to continue working on their project without having to worry about disposing of the trash that is going to be generated, saving them time, stress, and potentially thousands of dollars. The customer can also be confident that their project will not cause any pollution that can damage the local ecosystem.

The company has multiple multiple roll-off dumpster rental sizes that can be used to remove junk and waste from projects of any size and scope. They have a 3-5 yard dumpster, a 6-8 yard dumpster, a 10-15 yard dumpster, a 20-yard dumpster, a 30-yard dumpster, and also a 40-yard dumpster. Customers can choose any dumpster based on their requirements and the tonnage of the trash that is expected to be generated from their project or activity.

Ideally, for the customer, it makes sense to fill up the dumpster once and then have the dumpster rental company handle the trash efficiently. If the customer is not able to effectively gauge the dumpster size they need, they are recommended to have a 1 on 1 call with the company's representatives. The representatives will get an overview of the customer's requirements, suggest the ideal size of dumpster that the customer might need, and give them an instant price quote. Once the customer agrees on the price and the date and time of the rental, the company will then arrange for the dumpster to arrive at their location.

Once the dumpster has been received, the customer can focus on completing the job they have undertaken to the best of their abilities while all the junk is collected in the dumpster rental. After the customer finishes the task at hand, they can call up Junk Disappear anytime to have it taken away. The customer will be charged based on the number of days that the dumpster was rented out to them. The company generally requires a 2-hour notice for the pickup. If the customer is a contractor that frequently works on construction and home renovation projects, the company also offers to rent out the dumpster for a period of months or years, depending on the contractor's projections.

Junk Disappear can be contacted at the phone number (216) 376-2787.
