

Top Denver Plumber Opens Littleton Location

July 12, 2021

July 12, 2021 - PRESSADVANTAGE -

Denver, CO - High 5 Plumbing is excited for new opportunities, better service, greater reach.

Denver-based High 5 Plumbing has opened a second location at 8000 South Lincoln Street, Unit 3, Littleton CO 80122. With an additional location from which to service clients in the region, the High 5 Plumbing team is very excited about the opportunities that come with having a larger footprint. Clients in the Littleton area will enjoy the same level of unbeatable service their neighbors in Denver receive, and they will get help faster since High 5 is now located much closer.

"We have always loved our clientele throughout Littleton, so having a brick-and-mortar presence in their city just makes it all the more special when it comes to getting them taken care of," Cassi Torres, co-owner of High 5 Plumbing says. "We've wanted to expand into Littleton and the south Denver area for a long time. We know the need is there because of the growing population and all the amazing relationships we've established in the area. The feedback we get from the community is very positive, so it made sense to expand here when the time was right."

As with their north Denver branch, the Littleton team will offer the same scope of services which include complete plumbing, water heating, and drainage services. Everything from repair and installation, cleaning and maintenance, outdoor and gas plumbing, and general plumbing maintenance, High 5 is synonymous with high levels of quality, response times, transparency, and client satisfaction.

"We want to become more involved with Littleton the same way we are in Denver, and that starts by offering unparalleled service, setting new standards in customer care, and never backing down from a new challenge," Torres says, who launched High 5 with her husband Levi eight years ago.

Since then, the company has become synonymous with residential and commercial property owners seeking a worry-free, quality experience that will put their minds at ease no matter the scale or scope of the task at

hand. The company will also include more Littleton-based organizations in their High 5 Cares program, which presents volunteer and cash donations on a monthly basis to local charity organizations.

About High 5 Plumbing

For nearly a decade, High 5 Plumbing has served as a trusted partner to homeowners, businesses, and commercial property managers seeking 24-hour worry-free, dependable plumbing services who are passionate about serving the Denver community. Volunteerism, transparency, and diligence are three core tenets the company's philosophy is built upon, and the company is heavily relied upon throughout the region for its expert-level service, rapid response times, and open and clear communication with its clients. Every call ends with a High 5.
