

Roof Repair Company Opens New Office In Norman, Oklahoma

July 16, 2021

Edmond, Oklahoma - July 16, 2021 -

OK based roofing company Roof Pro Local is pleased to announce that they have opened a new office in Norman, Oklahoma. The company has been providing residential and commercial roofing services to Oklahoma City, Edmond, Yukon, Norman, Moore, Nichols Hills and the surrounding areas for over 20 years.

Roof Pro Local states, "We understand that every roofing project is unique, and every property has its own needs. Our talented and fully insured roofing crews are dedicated to provide the residents of Oklahoma with top-notch professional workmanship on all their needs, from simple roof repairs to new roof installations including a complete clean up of their yards and the entirety of a project area upon completion. With our brand new office in Norman, Oklahoma, we are glad to say that we are able to bring our services to more people and look forward to servicing our community's every roofing need."

Since they were first established, the company has been constantly growing and spreading the reach of their services. With three new reps hired in the last year and with over 500 roofs serviced since 2018, Roof Pro Local is still continuing to grow. As they expand, they are doing everything they can to make their services more accessible to all homeowners across the state. Along with the news of their new office, the company

also boasts that they are now able to save homeowners up to 40% on their premium with their system.

Roof Pro Local guarantees workmanship quality in every project they undertake. They use high quality, impact-resistant shingles, installed to the manufacturer's maximum specifications that ensure the roofs will last. Their services are provided with the assistance of qualified experts who have more than 20 years of expertise in the field and who all take great pride in the quality of their work. All of this high quality service is provided at affordable rates, with multiple service tiers available to fit each homeowner's needs and budget. As a result, every resident of Oklahoma can rest easy about the quality of their roof when they work with Roof Pro Local. Where necessary, the company will also work with insurance agencies from start to finish to make the entire process as painless for the homeowner as possible.

Roof Pro Local has earned the trust of the local community with their stellar services, as is made evident by the company's Google reviews. In a recent review, R. Vincent writes that, "Bruce was wonderful to work with. Very professional and kept me in the loop the whole time. Bruce worked with our insurance company and took care of everything, which made for a smooth experience. They were quick, punctual and the roof looks fantastic. Bruce was also able to get some siding and screen repairs done for us. The siding matched perfectly, and the screens looked great."

Meanwhile in another review, Valerie Walker shares that, "This company is truly a roof pro! I had called another company, by referral. He came out and said he'd get me an estimate. So, I called Roof Pro Local, also by referral. Darren was very responsive and came out the same afternoon. His estimate was very fair and reasonable! Steve came out to repair my storm damaged roof; pine tree limb torpedoed through the deck. Steve did an excellent job. He explained what he was doing, materials used and told me of a new product they used that is self sealing. Wow! I felt extremely confident that Steve was a skilled, reliable man who would not price gouge as others did with this last bad ice storm we had, and he dressed like a professional."

The review adds, "Character is key when doing any job. I'm so thankful for the wonderful job Roof Pro Local and Steve did. Being that I'm a bit older and have been gouged before, the feeling of security is paramount for me. There is literally no other company to use but Roof Pro Local, so please, save time and just call them for roof repairs or replacement. I'm so thankful I did! I'd give them 10 stars if they were up there."
