An experienced tree service company, Folsom Tree Service Experts has just launched their emergency tree service, working 24 hours a day, seven days a week, to eliminate the risks caused by tree emergencies.

Announcing the launch of the emergency tree service, the company?s CEO stated, ?When a heavy storm breaks your tree and leaves it lying on your powerlines, you would want someone to remove the tree immediately so that power can be restored. When a large branch is threatening to fall on your house at 10 pm, you would want to have the tree pruned so that you can enjoy nice sleep the rest of the night. When you call our offices and request our emergency tree service ? irrespective of the time of the day or night ? we will do our best to be on your property within the hour, ready to tackle the emergency.?

Folsom Tree Service Experts is a fully-equipped company that offers all types of tree services.
